

Are you an Australian Corporate AWA Member seeking to showcase your innovative products and services to the Vietnam Water Sector?

The Vietnam Government's priority areas for improving water supply in Vietnam include:

- Water Supply Technology
- Wastewater Technology
- Water Quality & Monitoring
- Asset Management
- Non-revenue Water

We are facilitating an Online Trade opportunity, supported by the Australian Government with the Trade Platform being launched by the Australian Ambassador and Vietnam Water Minister during Vietnam-Australia Water Week. This will feature live on the websites of AWA and our partners the Vietnam Water Supply and Sewerage Association for six months.

We are inviting AWA Corporate Members that have serious intentions to either enter or expand into the Vietnam Water market to exhibit.

The Online Trade Platform has been funded by the Australian Government so there are no costs to exhibit however we are limiting exhibition spaces to just 35 companies from AWA's members for this venture.

Join the following Exhibitors on their journey into the Vietnam Water Sector

Aquatec Fluid Systems	Ovarro	SkyJuice
DMI-65	PIPE AI	SMEC
Dupont Water Solutions	Primus Line	SOURCE Global, PBC
Halgan	Puribag	Tiger Water Solutions
Infinite Water	Royce Water Technologies	TracWater
Metasphere	Safe Sticker	

If you are interested, please get in touch and I will guide you through the requirements.
