Approve Unblock Request

Deledao ActiveScan, presented by Hāpara **amplifies learner voice** by allowing them to challenge a blocked website needed for learning. The learner can submit a website for review with an explanation of why access to the site is needed. The teacher can approve or reject the site and even has the ability to determine the scope of the filtering and an expiration date.

Once a learner submits a website for review, the teacher **can approve or reject the site** and even has the ability to determine the scope of the filtering and an expiration date.

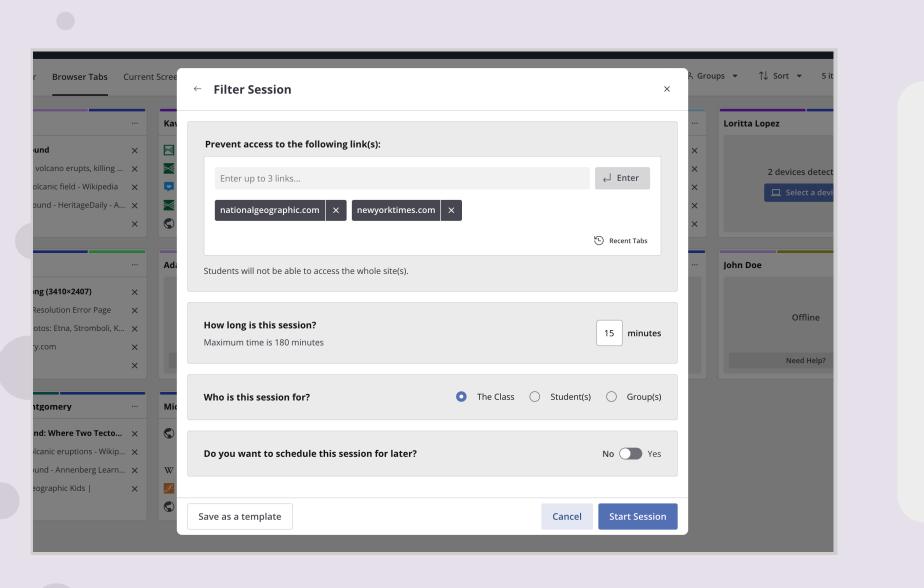

Are teachers able to manage learning decisions for digital tools without relying on school technology personnel?

Zoe Miller - zoe28p3@school.hapara.com

In the Deledao ActiveScan, presented by Hāpara teacher portal, if teachers approve a student unblock request, the teacher **can even set the expiration date**. Once the specified time has elapsed, the standard filter restrictions will be re-enabled.

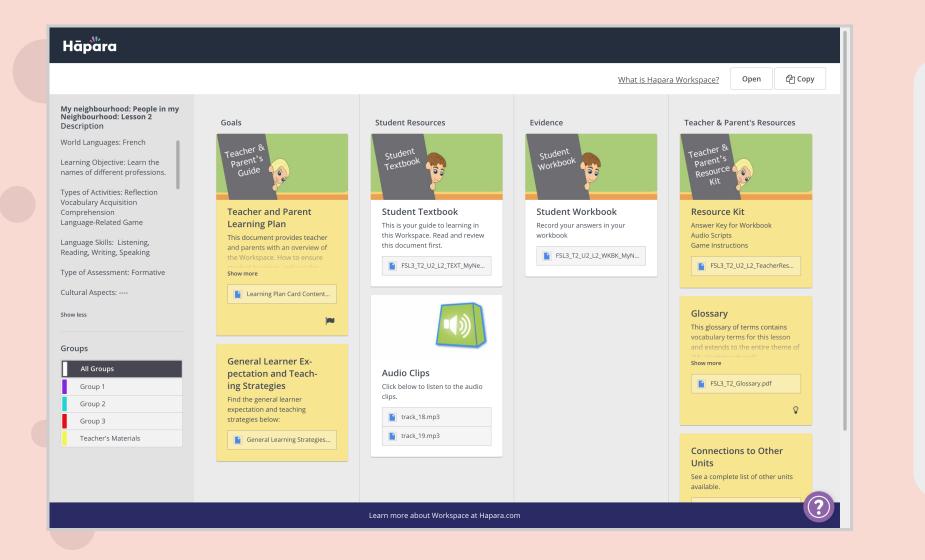

## Do teachers have the ability to continue instruction without relying on school technology personnel?

In Hāpara Highlights, if a teacher encounters a website that should be blocked, the teacher can set up a "filter session" to block that website for the remaining class time. No instructional time wasted!

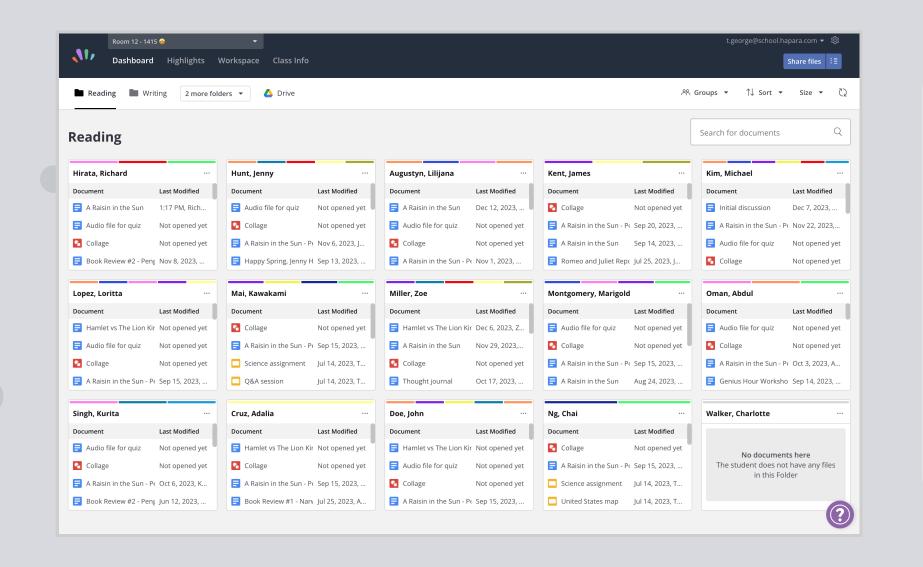

#### Can teachers use the digital tool to easily create learning materials?

Hāpara Workspace makes it easy for teachers to create digital learning materials. Anything can be linked to a Workspace: videos, websites, assessment tools and more. Even better, teachers can use the Workspace Discover and Private District Library features to share and collaborate on digital curriculum materials.

Can teachers use the digital tool to provide quick feedback to learners?

Hāpara's Teacher Dashboard provides teachers with access to all student work in Google Drive making it easy to quickly share formative feedback during the learning process.

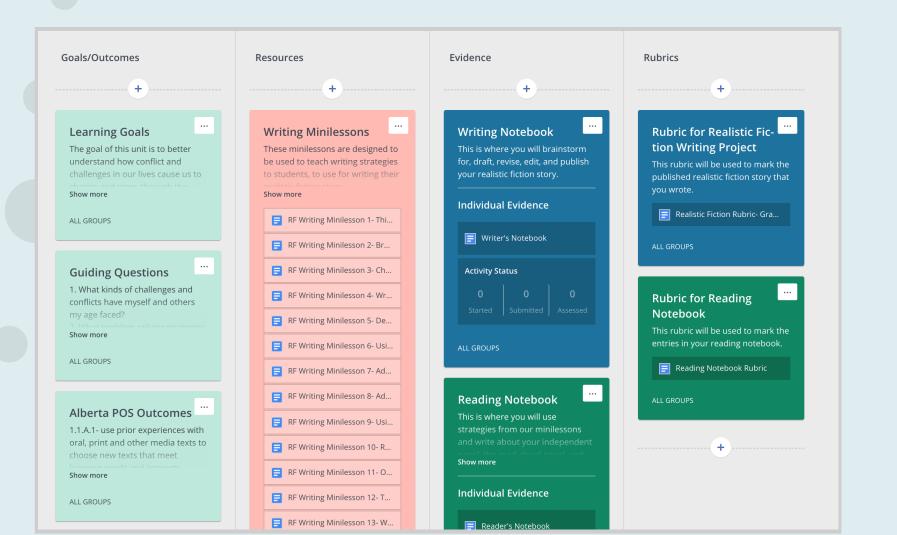

#### Can students access learning materials from multiple devices?

What can halt learning in its tracks? Access issues. Hāpara's Student Dashboard is a device agnostic tool that provides access to all learning materials in one convenient location.

#### Do technologies encourage learning agency and empower student learning?

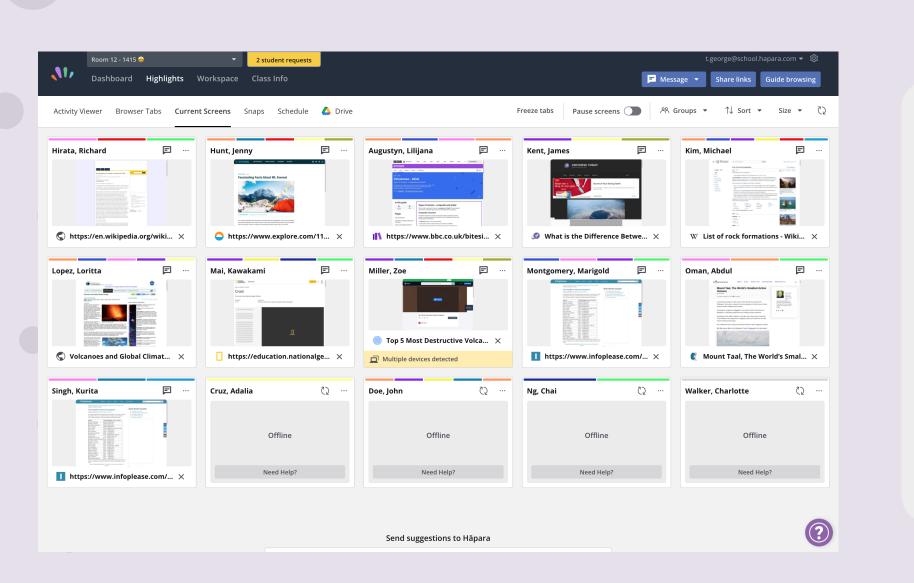

Hāpara Workspace allows students to contribute to their learning journey by adding their own resource and assessment cards. Workspace cultivates learner agency by providing the opportunity to easily create multiple pathways to learning for students with its flexible lesson format.

Are students empowered to learn how to use the internet responsibly, while oncuring safety?

#### internet responsibly, while ensuring safety?

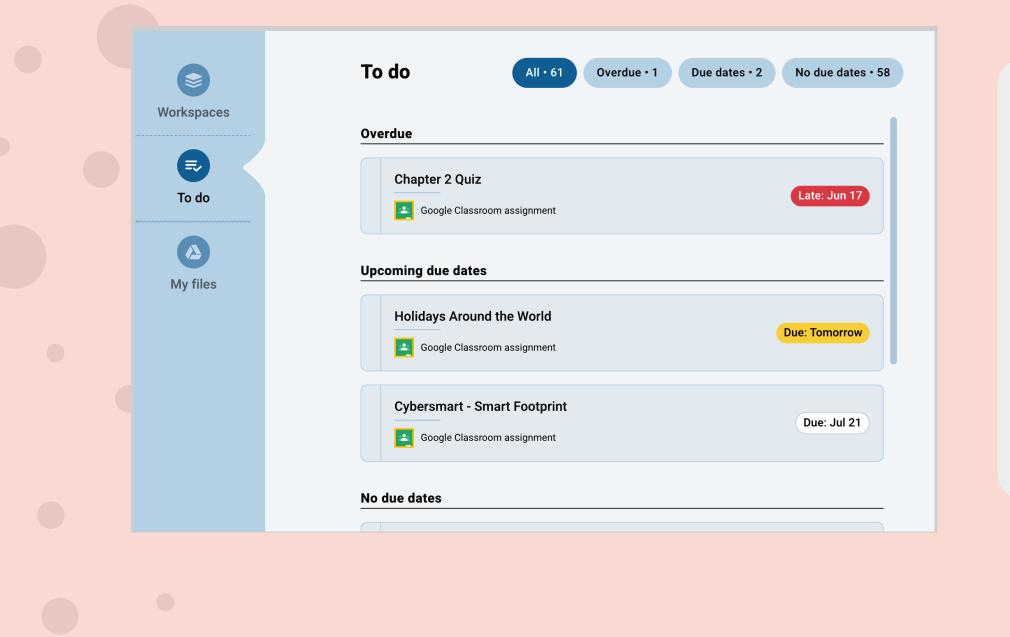

Hāpara Highlights provides visibility into learners' online Chrome browsing activity. This visibility enables an environment where students can learn to use the internet responsibly with guidance from their teachers. Highlights empowers teachers to cultivate student digital citizenship skills.

With Deledao ActiveScan, presented by Hāpara, students can submit unblock requests to their teachers for specific websites and have the opportunity to explain the educational purpose for doing so.

### Can students customize digital learning materials to meet their unique needs and personalities?

Student Dashboard allows students to customize their view of Google Classroom assignments using filters. For example, students can create a to-do list for all classes or individual classes.
