

## COLOR TECHNOLOGY

Bridger Steel's five new colors were created with you in mind. They simplify the color choosing process because they were designed to work seamlessly together. Created by the same single base color and then standardized by a number of calculations, you can be confident that each color will match and complement one another because of the same brightness scale they were built from.

### GLACIER

TSR 4.6 E .91 SRI 1

### TETON

TSR 26.7 E .84 SRI 25

### DENALI

TSR 72.6 E .88 SRI 90

### SNOWBIRD

TSR 25 E .87 SRI 24

### BIG SKY

TSR 24.8 E .83 SRI 22
