232CS

4" SQUARE BOX WITH ELEVATED KNOCKOUTS FOR CORRUGATED STEEL WALLS

Application

232CS is ideal for use on corrugated steel walls and ceilings. The elevated knockouts help to eliminate the need for conduit bends or offsets by allowing conduit runs to enter straight into the box.

Features

- 4" Square, 2-1/8" Deep Box
- Elevated Side Knockouts
- 30.3 Cubic Inch Capacity
- UL Listed

LISTED
Outlet Box
731A

Elevated Knockouts on two sides of the box eliminate the need for bends and offsets

Ideal for channel ridge mounted conduit runs, as well as conduit runs in the wall channel
