### Temporary outdoor security

## Heras Mobile Fencing & Security

Heras Mobile is the reliable specialist for the production, sale and rental of solutions for temporary security. It was Heras who invented the construction fence in 1966. Founded in 1952, Heras Mobile is currently operational in 24 countries.

Heras Mobile is a stable entity. We understand the problems of lessors and end-users.

All Heras Mobile construction fence installations have a CE certificate and therefore comply with safety regulations laid down within the European Economic Area. We gave our products important added values, such as excellent logistics and detailed assembly instructions. High-quality accessories provide additional security for your workers, end-users and the environment.

### Europe's largest in temporary security

Heras Mobile is European market leader in temporary security solutions. This we achieved by keeping in touch with the market. The possibilities are unlimited, our staff is competent and flexible and production is ecologically responsible.

### Reliable solutions

Heras Mobile offers reliable solutions for protecting temporary limits. Our ambition is an optimal price/quality balance. Being customer-oriented is in our blood. You and your customers will get a good and safe feeling with our way of working and the solutions we offer.

## Heras Mobile values Safety, Health and Environment

# We contribute to sustainability within the temporary fencing industry

Heras Mobile Fencing & Security's three European production units are designed to produce as efficiently as possible. Energy and CO2 reduction are achieved by applying innovative techniques and clever planning. Our aim is to continuously invest in future-proof, more energy-efficient plants.

Market leader Heras Mobile invests in sustainable and secure production, process innovation and enterprising. We do this by implementing our ESG policy and safety in our day-to-day tasks, but also by looking at better solutions with partners and suppliers.

### Safety, Health and Environment

Heras Mobile endorses strict policies on Safety, Health and Environment. Together with our staff, suppliers and customers we sustain the chain. Our standard policies are:

#### Safety

Zero accidents and fatalities in production, transport and assembly. Safety is our priority and therefore we have a certified system for security management.

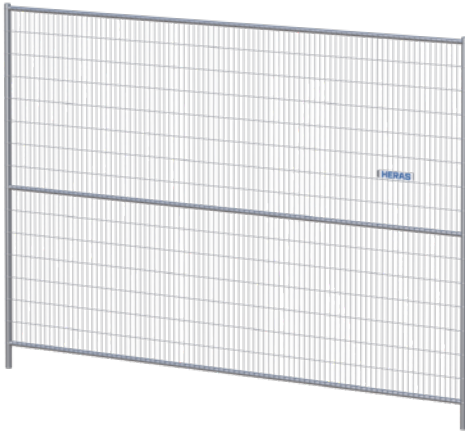

#### Health

A safe environment, a good working atmosphere and good working conditions play a key role. Together we avoid incidents and reduce sick leave. We also encourage the personal development of our employees.

#### Environment

We want to reduce our impact on the environment. To achieve this, we focus on our own activities and our impact in the value chain. Together with our partners, we are working to reduce emissions and achieve a circular economy.
