

The flexible, scalable meal plan for your employees

Unpredictable schedules in the hybrid workplace can make ordering food for your company tough. Relish makes it easy to feed 20 people one day and 200 the next. You pay only for what your team needs.

Employees choose what they want from a rotating selection of popular restaurants. You get safe, reliable delivery of individually packaged meals right to your office.

66%

of companies currently offer their employees free or discounted meals.

81%

of leaders agree that offering free meals and snacks to employees is the **best** way to incentivize attendance.

93%

of leaders say that more employees show up to the office on days when free food is provided.

How it works for your team

Variety

Choose from a rotating list of popular local restaurants. New options added frequently.

Convenience

See the schedule a week in advance. Place an order before each day's cutoff time on the website or app.

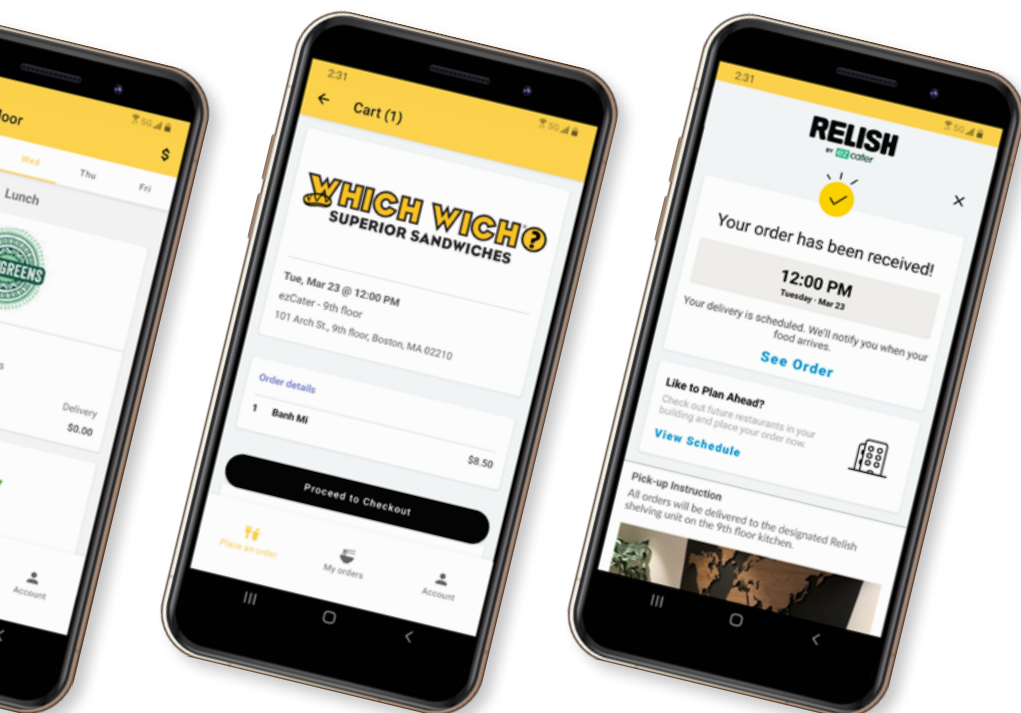

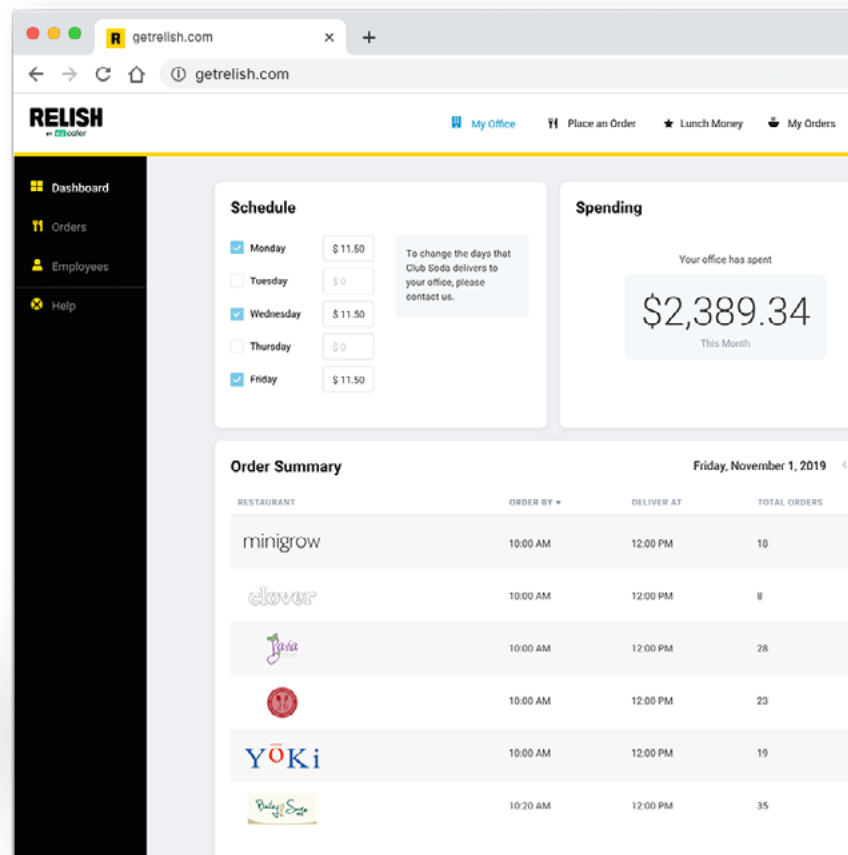

Reliability

Get contactless delivery of individually packaged meals at a set location and time (Delivery is \$25 per restaurant).

Your staff gets variety. You get visibility and control.

Your admin dashboard shows you who ordered and what they selected. You can subsidize some, all, or none of your team's meals.

Track spending and adjust subsidy amounts right from the dashboard.
