

## Customer Release Notes

**Product ID:** 7007 IntelliNet 2.0 Burglary Subscriber

**Software Version:** 6.0.03

**Release Date:** July 31, 2020

### **Overview:**

This document describes the new features, improvements, bug fixes, and workarounds/known issues (if any) for this release. The previous version was 6.0.2 from September 26, 2019.

### **Improvements:**

**1. ACORN-2557: Upgrade drivers to improve stability**

Drivers were upgraded to reduce the number of watchdog resets, and improve overall stability and performance.

**WARNING - This update should not be used to upgrade units running version 5.1.16. Attempts to upgrade from this version could result in an unrecoverable failure.**
