Are you ready for your

FALL CROPS?

Increase Yield and Save Money

with Horganix Bio 800⁺

Now through August 31, 2021, when you purchase 200 gallons of Bio 800⁺, you get an additional 50 gallons FREE.*

CP Agronomy, Kansas

"The guys that have used Horganix are excited about it so far, and certainly plan to keep using the product on winter wheat."

Justin Ogle, Missouri

"Our best winter wheat field was planted October 24, 2018 and the only difference was we used Horganix, which yielded an average of seven bushels better."

Taylor Petsinger, North Dakota

"If you like bigger roots, bigger pods, and bigger ears, then it's a no brainer to use Horganix on your crops!"

Why use Holganix Bio 800⁺?

Holganix Bio 800⁺ harnesses the power of over 800 species of soil microbes to increase yield, improve crop resilience against stress and boost soil health.

From wheat to cover crops to strawberries...

Data from commercial growers and researchers show Bio 800⁺ can increase your yield, improve plant strength and build soil health.

1

Winter Wheat

Growers see a 2 - 18+ bushel per acre yield increase over the growers' traditional averages.

2

Strawberries

Growers using Holganix Bio 800⁺ see both a higher yield and higher marketable yield.

3

Cover Crops

Growers see faster establishment and deeper, more extensive root mass that helps build soil.

**Does not include shipping costs. Offer valid from 8/1/21 - 9/30/21. May not be combined with any other offers.*
