

## GRANULAR FERTILIZER INFUSED WITH HOLGANIX SOIL MICROBES

"Holganix Granular has not only given us the green grass we are looking for, but has also improved our turf roots which means our turf is stronger no matter the season."

- Ed, Premier Landscape, Pennsylvania

Looking for a simple solution to boost turf color, thickness, and soil health? Holganix granular fertilizers are crafted with soil microbes, specific carbon sources, and high-quality nutrients to:

-  Build thick, green turf
-  Promote root architecture
-  Nurture soil health
-  Stimulate microbial activity
