

Cloud Services

Access EZ-CAP Anytime, Anywhere.

Citra Cloud provides an advanced EZ-CAP cloud-based hosting service that gives you everything you need to run EZ-CAP, EZ-EDI, and EZ-NET.

Innovative Technology

Achieve “plug-and-play” access to your application to safeguard your data and control costs. If you don’t have the capacity to build and manage your own infrastructure, no problem. Citra Cloud has you covered.

Get Ready to Plug-and-Play

Operate your Citra applications through the Cloud on a remote server anywhere you work. Say goodbye to purchasing and maintaining in-house servers and say hello to eliminated capital expenditures, simplified implementation, and reduction in total cost of ownership.

Innovative technology solution that improves the ability to manage delegated risk and provide member/patient care and support providers.
