Your health benefit management solution.

Streamline your day-to-day business operations for multiple lines of business with real-time payer-provider connectivity.

Collect. Control. Maximize.

How can EZ-CAP help you?

- ✓ Maximize electronic data interchange, minimize implementation time and leverage its flexibility for future expansion
- ✓ Take control of complex processes involving benefit plans, provider contracts, and patient populations
- ✓ Manage capitated risk and benefit management requirements with a powerful SQL database back-end and browser-based user interface
- ✓ Collect and store provider and patient profiles, health plan benefit data, primary care encounters, specialist treatment authorizations, physician and hospital FFS claims, risk sharing arrangements, and industry standard codes required for end-to-end UM, QM, and claims processing
- ✓ Calculate patient months by health plan benefit option, primary care physician, patient condition, age and sex
- ✓ Automate timely and accurate payment to capitated providers based on per patient per month expenses
- ✓ Utilize "graphical mapping" drag-and-drop fields from both HIPAA standard files and data sets to map inbound and outbound transactions
