A revolutionary new approach to managing populations and risk.

Why has EZ-INFO been selected to support over 100 healthcare organizations?

EZ-INFO provides a single vendor, integrated platform that facilitates end-to-end population management. Our comprehensive tool set supports ACOs, payers, large provider groups, health systems and other healthcare organizations who aspire to provide superior care to their patients at a reduced cost.

Comprehensive

Integrated analytics, risk stratification, care coordination, provider engagement, and member engagement on a unified platform.

Synchronize

A single platform provides an information conduit supporting data exchange and clinical guidance between payer, physician, and patient.

Simple

Enterprise Data Warehouse unravels the complexities of aggregating and normalizing clinical and claims data from multiple sources.

Predictive

Our Searchlight risk stratification engine identifies patients who have predictable, avoidable high cost events.

EZ-Suite Integrated, Interoperable Solution

Our open platform manages the secure exchange of data among all systems (EHR, HIE, Lab, and more) within your community.

Tailored

EZ-INFO's solution is tightly integrated yet modular allowing you to unbundle our components to fill the exact needs of your organization at an affordable price.

Affordable

Our cloud based solutions minimize upfront cost, and our competitive monthly fees accelerate return on investment.
