18	17
19	18
20	19
25	23.5
30	28.5
40	38

Above readings taken with equipment as follows:

Meter: F-2000

Electrode: H-4 & 831 Prod

NOTES - For best results, use a 1 quart teflon container & fill IT to the top.
Press the electrode (H-4 with 831 prod) into the material until it compresses
to 1/3 the volume to take the reading. Take several readings for an average.
