

Welcome to a M247 Connected Building

M247 already has customers in your building connected to our global network, meaning you can have access to many services too:

- Ultrafast high bandwidth dedicated internet connectivity
- Voice over IP services, such as Hosted Telephony and Call Recording
- Cloud services, such as IaaS and DRaaS
- Connectivity failover options

Additional benefits:

- Services go live in as little as 5 days from ordering, so you can move straight in and start working
- Up-scalable services even within contract terms, we support your business growth
- Takes the stress out of moving offices, it's quick and easy with 24/7 support
- No Wayleave holdups - documentation is already settled, so you don't get involved in legal issues
- No additional construction charges (ECCs), no hidden charges or curveballs, we offer transparent cost of service throughout

About M247

We're proud to be recognised as a market-leading connectivity-led cloud services partner, supporting businesses across the UK, and worldwide.
