

VMX[®] Casework

VMX® Casework is built to stand the test of time.

Produced in our advanced manufacturing facility in Tracy, CA our cabinets come to life in a tightly integrated, quality-obsessed environment. We control every step of the process from design to manufacturing, relying on the best materials, precision manufacturing and a highly skilled team to deliver premium quality at a great value.

Why choose VMX®?

Advanced Manufacturing

Designed and built in our Advanced Manufacturing Facility in Tracy, California.

Superior Materials

We build and source premium materials, from foundation to finishes

- **Foundations:** Industrial grade substrate to create a stronger, more durable solution
- **Laminates:** Full PUR edge banding on all cases and doors to deliver elegant design and better performance.
- **Hardware:** Salice glides and hinges deliver performance backed by Salice's lifetime warranty.

Flexible Solutions

Designed to meet the needs of kitchen, bath and storage across entire projects.

VMX®

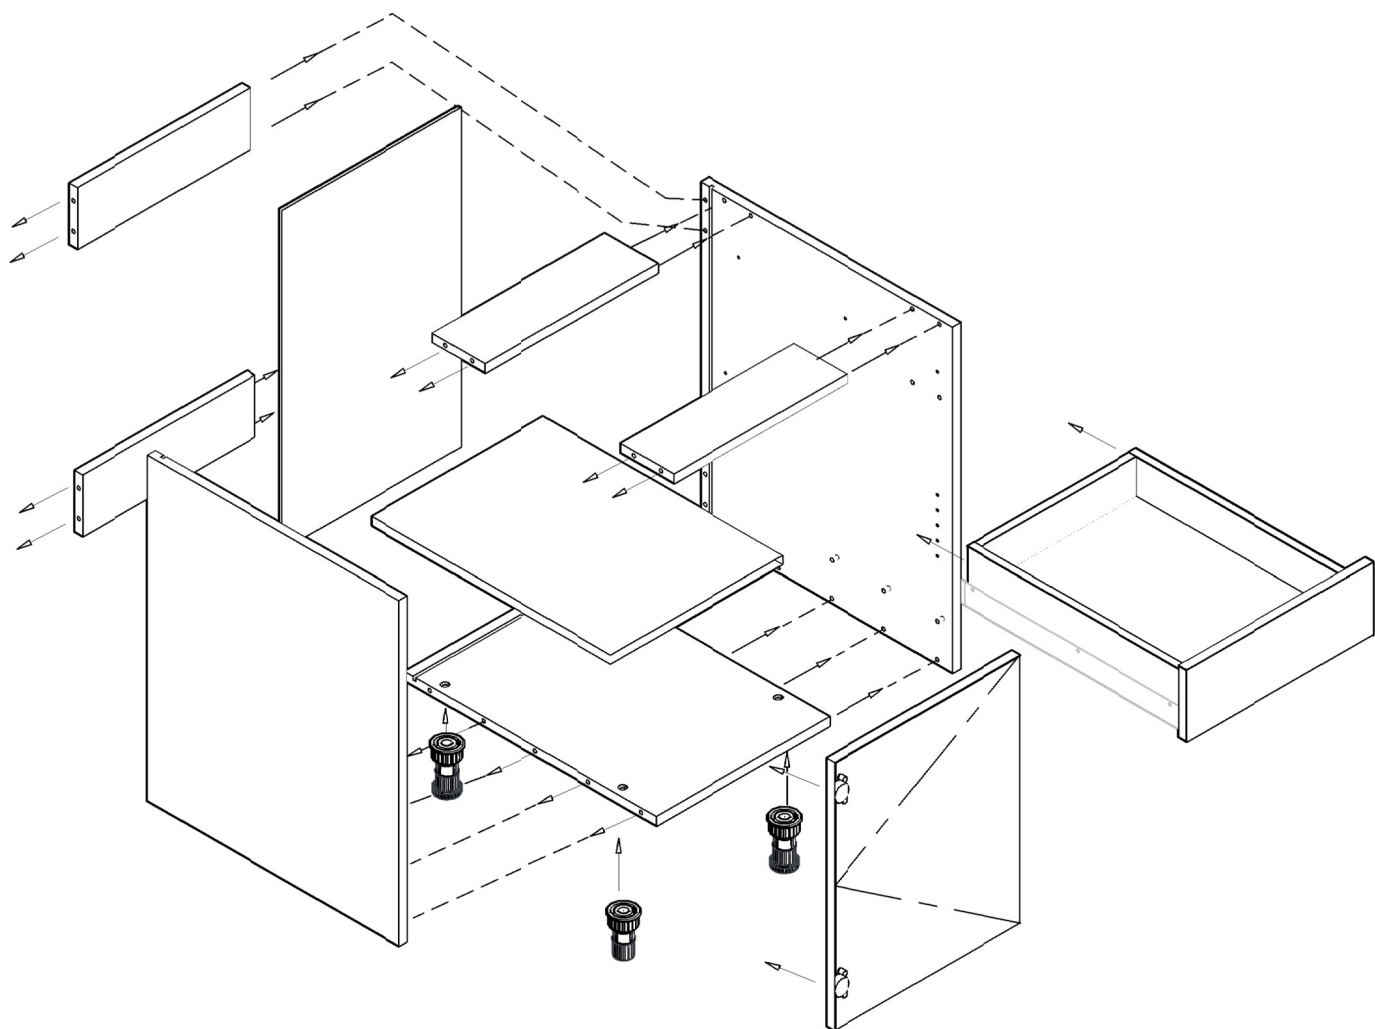

Good design doesn't have to be expensive. VMX® products are designed and manufactured to be consistent in quality, materials, and finishes. We offer integrated, whole-project solutions available through one efficient source, making selection, specification and delivery easier.
