These tables outline the minimum efficiency requirements for eligibility by equipment type and size category. Incentives are listed as \$/ton where the tonnage corresponds to the AHRI rated cooling capacity. Equipment capacity is AHRI rated capacity or capacity at AHRI rating conditions for units without an AHRI rating. Equipment must meet all efficiency requirements and be rated to the AHRI/ISO standards listed above to be eligible for an incentive.

New and custom equipment entries must be accompanied by a cut sheet or other documentation including:

- Unit efficiency and capacity ratings at the specified test conditions of the rating body
- EER @ AHRI Conditions
- SEER/IEER @ AHRI Conditions
- Cooling Capacity @ AHRI Conditions
