Leveraging 80 Years of Structural Expertise to Educate the Next Generation of Utility Personnel

STEEL TECHNICAL SEMINAR

Join fellow utility professionals as nine subject matter experts provide two days of instruction, including an overview of program analytics and best practices of steel structure assessment, remediation and restoration.

October 25 - 27, 2021 | Peachtree City, GA

Course Outline

- Using Analytics in Structure Asset Management
- Groundline Inspection
- Full Asset Inspection: Drones, UASs, and LiDAR
- Structural Analysis on Steel Structures
- Corrosion Prevention
- Asset Restorations and Resiliency
- Cost Analysis: Steel Asset Retention (Stewardship) vs. Loss/Replacement
- Capitalization
- Field Demonstrations

Complimentary for Osmose customers

Includes 14 hours of instruction, one dinner reception, one off-site social event and dinner, breakfast, lunch, and transportation from the host hotel to the Osmose campus.

Who Should Attend?

- Utility T&D Engineers
- Program Managers
- Asset Managers
