

MCC AUTO-CLASSIFICATION

Use MerchantView's MCC Auto-Classification and our proprietary advanced machine learning models to quickly identify and correctly classify merchants.

MCC Auto-Classification Features

-  Comprehensive classification of merchant's Line Of Business
-  Detect high risk MCCs
-  Flag mismatched and incorrectly reported MCCs
-  Access merchant reported MCC alongside merchant details
-  Advanced filtering by MCC code

Automate Risk Management

-  Continuously monitor merchants to identify mismatches in their MCC codes
-  Expose merchants doing business under an incorrect MCC
-  Supervise merchant integrity for a more effective AML compliance program
-  Increase MCC detection rates for your entire merchant portfolio

EverC integrates deep crawling technology, a proprietary knowledge graph and advanced machine learning models with our world class domain experts to empower business growth. We provide unparalleled visibility and understanding of the internet.
