Level 2: Reporting

Course Description
This three-day, hands-on course covers advanced Member Filters, Dynamic Calculations and format settings for Cube Views, BI Viewer and advanced Components, Dashboard layouts and embedded Dashboards, and the OneStream features used in Report Books.

Note that this course does not cover reports built in OneStream Studio—Please review Navigator content.

Who Should Attend
Only expert administrators who have experience creating OneStream Cube Views and Dashboards or advanced implementation services professionals should attend. The program level of this course is intermediate.

Prerequisites and Advanced Preparation
Prior to taking this course, you should complete one of the following courses, or possess equivalent knowledge:

- Application Build for Administrators
- First Project Readiness Learning Path
- Application Build for Consultants

In addition to the course prerequisites above, all attendees must proficient with concepts such as: navigating OneStream, Cube Views and Cube View formatting, Cube View Designer, Dimensionality, basic Member Filters and Expansions, Dashboards and Dashboard Maintenance Units, and basic Data Adapters and Components. This is an intermediate class which does not review content from other classes, such as Application Build for Administrators.
