

Industrial Placement Program: Undergraduate Internship

Junior Analyst

Start date: Various – as early as January 2021

Salary: Competitive

Type: full-time

General

We have opportunities to become part of our delivery team of consultants. All roles will be customer facing and depending on experience, skills and development needs you will operate as a member of our engagement teams and/or lead our engagements.

About You

From induction you will become an integral member of a highly successful team. You will be assigned to internal and customer-facing projects, having a direct impact on the success of Capacitas. To accept this level of responsibility we require students who are able to demonstrate enthusiasm and professionalism in their role.

This will be a unique experience for you, as placement with Capacitas will give you the opportunity to apply theory to practical business issues.

It is important that you:

- Seek challenging problems to solve
- Demonstrate ownership of your own work and development
- Have a curiosity about customers' technical and business environments
- Enjoy building relationships
- Are driven by adding value to customers
- Thrive in an environment where you are both supported and support others

About the role

Projects will include:

- Providing support to our senior consultants on client engagements
- Delivery of consulting services to our clients
- Development/improvement of our operational support services to enable the continued growth of Capacitas
- Accompanying the senior consultants on client visits
- Defining requirements to enhance our software services
- Research and development activities

The following skills would be desirable:

- Windows operating systems
- Microsoft Office packages (to advanced level)
- Basic knowledge of SQL

Any of the following skills would be advantageous:

- Understanding of cloud computing platforms (AWS, Azure or GCP)
- Unix/Linux operating systems
- Understanding of Queuing Theory
- Understanding of Regression Analysis
- Microsoft SQL Server
- Microsoft .NET
- Agile development methodologies

Qualifications

- If you would like to be considered for an Industrial Placement position within Capacitas you must:
- Be in your penultimate year of study at university
- Be studying an information or communication technology related degree
- Have a prospect of gaining a 2:1 or higher with a strong academic record
- Have good theoretical and practical experience with information & communications technology
- Have a minimum of 280 UCAS points or equivalent

This presents the opportunity to work in a dynamic environment and lay the foundation for a career in the ICT industry. Placement with Capacitas will provide the opportunity to apply theoretical knowledge to solve business issues.

Application process

Please submit your application through <http://www.capacitas.co.uk/application-form>, indicating 'Junior Analyst' as the position applied for. Applications will be dealt with on a first come, first served basis. Capacitas reserves the right to close this vacancy if a high number of applications are received. If you are interested in this role, please submit your application as soon as possible.
