Jillian Berger  
Head of UX Research  
MainStreet

“It's crucial for our team to be able to make informed design decisions. Great Question takes care of all the logistics around our research needs, allowing us to spend more time talking to and learning from our customers.”

Dani Sandoval  
[Director of Design](#)  
Chipper Cash

“Great Question allows us to get in touch with our customers in a really natural way. It helped me put all my research in one place, from the panel of customers, to screener questions and responses. It makes our research super easy & efficient.”

Emily Drumm  
UX Researcher  
DonorDrive

“Our customers can provide feedback quickly and easily without needing to download an app or log in, and we get to see and hear their thoughts as they complete their study. It’s going to be so much easier to get high-quality customer feedback and we’ll be able to make decisions a lot faster!”

Sarah Stumme  
Product Design Researcher  
Rev.com

“We’ve cut the number of tools we were using in ½ and we can do everything from recruiting a panel to sending incentives in Great Question. It’s helped me streamline the recruitment and planning stages of our research.”
