

CORENEXA™
Cloud Communications

**Max Productivity & Engagement
with All-In-One Voice, Video,
Messaging & Collaboration**

***CoreNexa is
fantastic. I love
how easy it is
to share screens
and collaborate!***

- Scott W.,
CoreDial Partner

CoreNexa 7.0 Solution Features Overview

Businesses have new needs when it comes to communications and collaboration—needs that require much more than what’s possible with point solution video & meeting apps. Even well known video brands who market their capabilities as all-in-one or “complete” solutions leave users needing or wanting more. Not CoreNexa. With CoreNexa’s all-in-one voice, video, messaging and collaboration, working remotely feels no different than working in the office and employees working from anywhere are empowered to be highly productive and stay incredibly engaged.

CoreNexa is a fully-loaded cloud communications platform that combines high-quality voice & video with: a built-in softphone for making and taking calls and a long list of calling features, HD-video conferencing, messaging (Chat & SMS), meetings, virtual rooms and an impressive menu of stand-out collaboration features only found in CoreNexa. Beyond proven feature parity & unmatched value, CoreNexa easily surpasses alternatives with features designed to unleash the power of the modern workforce:

Unleash the power of the modern workforce...

CORENEXA™

Voice & Calling Services

- **Built-in Softphone***: Employees can make or take calls directly in CoreNexa, with instant access to the calling features they've come to expect:

Inbound/Outbound Calls, 3-Way Calling, Speed-Dial, Attended/Unattended Transfer, Do Not Disturb, Call Forwarding, Mute, Hold, Redial, Find Me, Call History, Call Recording

- **Call Move**: While on a call, users can move between the CoreNexa desktop and mobile apps with just the push of a button, without needing to put a call on hold first.
- **Contacts w/ Presence**: See at a glance when coworkers are available to keep daily operations moving efficiently and seamlessly.
- **Visual Voicemail**: View and manage voicemails on a single screen, including convenient visual message transcriptions powered by Google's Cloud Speech API.

** For BYO-PSTN customers, calling features availability may vary based on 3rd-party PBX capabilities*

Video

- **HD Video Meetings**: CoreNexa provides every user with unlimited 1:1 and group meetings with up to 100 participants per meeting (Standard plan users can schedule group meetings up to 40 minutes). Users can join meetings at any time from the downloadable CoreNexa desktop app as well as via browser and mobile apps (iOS/Android). Meetings can be encrypted with a PIN for added security and confidentiality.
- **Simultaneous Screen Sharing**: Users have multiple screen sharing options; share one screen, a portion of their screen, or specific applications. Even better, multiple users can share their screen at the same time, eliminating awkward pauses and wait times often experienced during presenter transitions.

- **Video Recording**: Record any meeting for easy reference later, or to share updates with absent/unavailable team members.
- **Private Sidebar Conversations w/ Audio & Video**: Users can speak and screen share with each other during meetings or while in virtual rooms without exiting a meeting or disrupting the main conversation.
- **Video-only Support**: Also called "bring-your-own PSTN," CoreNexa can be deployed as a stand-alone video product— perfect for businesses that already have their own voice solution!

Messaging

- **Private & Group Conversations**: CoreNexa enables teams to handle all messaging (Chat & SMS) in the same all-in-one solution where they're already making/taking calls, collaborating and having meetings.

Premium Features Options

(paid, high-value upgrades)

- **Voice Dial-in Option for Meetings** *(included w/ paid Pro seat)* Meetings can be accessed via a phone number in addition to the desktop and browser apps.
- **No Time-limit Meetings** *(included w/ paid Pro seat)*: In addition to unlimited no-time limit 1:1 meetings included with the free Standard seat, Pro seat users also have unlimited no time-limit group meetings with up to 100 participants per meeting.
- **Virtual Rooms**: CoreNexa's "always on" virtual rooms give employees a space to gather, hang out or collaborate through the day, coming and going as needed. Rooms provide a true collaboration space and create the same highly personal experiences of working together in an office.
- **Lightboard Mode** *(included w/ paid Pro seat)*: Using any presentation software such as Microsoft Powerpoint or Google Slides, users can set up custom overlays with animations, text, and graphics that can be instantly displayed during any meeting.
