

## IDville Customer Loaner Agreement

At IDville, we pride ourselves on serving our customers and ensuring a positive experience with our products. At times, your equipment will need to be serviced, and as a courtesy IDville makes available a fleet of “Loaner” ID Printers for use during service to ensure as little interruption to your business as possible.

By entering into this agreement for the use of a “loaner” device while the Customer’s device is being serviced, the Customer agrees to take full responsibility for the “loaner” device and will have 30 days from the return date of the device (Customer device) being serviced, to return the “loaner” device in the condition it was provided and with the accessories that were provided.

Failure to return the “loaner” device with all accessories within the 30-day window, will constitute a desire to purchase the device or accessories not returned, and the customer will accordingly be financially responsible and promptly billed for the “loaner” device and/or accessories, at the full retail price.
