RENEW
PLAYGROUND

Full of taste Zero waste

The old throwaway society is facing a turbulent time. Mountains of rubbish are growing ever larger and layers of plastic the size of continents are gathering in the world's oceans. 'Less waste, more conservation of resources' is therefore the way to achieve a more sustainable lifestyle. This includes unpackaged foods as well as cuisine focused around local ingredients. In line with this new mindfulness comes ReNew – an innovative collection of recycled ceramic material.

90%*

Made from 90% recycled ceramic material.

ECOLOVE

What for a long time was considered part of an alternative lifestyle is now firmly rooted in the DNA of large companies. For the megatrend of neo-ecology, it's not just what's on the label that matters, but what's inside. The oval ReNew dish offers ample scope for presenting eco-friendly food-recycling served by PLAYGROUND.

TOO GOOD TO GO

Complete sustainability owing to production from clay and enrichment with recycled material. Matte items on the outside are glazed on the inside for the presentation of food on a hygienic surface. The glaze also prevents discoloration of the eating surface. This ensures a handcrafted look and practicality that complement one another perfectly.
