SMART
A SAFE CHOICE - WHITE, TIMELESS PORCELAIN

The new concept for smart shoppers – German hard porcelain at attractive prices.

The new, intelligently composed, lines of the Bauscher Smart collection are ideal for the presentation and serving of contemporary foods and beverages.

White porcelain with a timeless formal vocabulary or attractive decors with a hip, coupe look – all pieces come in professional quality with the Made in Germany seal and are in stock for immediate delivery.

The very smooth and non-stick, glazed surfaces of the new Smart pieces are a guarantee not only for a long service life, but also, and above all, for easy cleaning. Thanks to its low porosity, hard porcelain prevents germs and bacteria hiding away in surface pores. After all, besides outstanding tableware design, compliance with hygiene standards is now more important than ever before.
