table culture at its best

Table culture is constantly in motion. It thrives in the feeling of the moment. For that perfect instant, when everything is exactly right. The **expertise** and **dependability** of WMF, along with its dedication to research, design, development and production, is rooted in the ever-changing world of table culture.

creating culinary experiences

It is of great importance to **inspire** your guests every day. An essential key to success is the laid table. It is the center of attention, for here is where you stage the menu for a **culinary experience**. Whether elegant, long-established, modern, or pure, WMF cutlery complements any concept.

Cutlery is more than a simple table utensil. It is the **visual** and **tactile** expression of culture and lifestyle. Since 1853 WMF has been creating flatware designed for your **individual style**, focusing on form-perfect functionality, precision, and lasting appearance. From the curves and elegance of various collections to the surface treatments that result in some of WMF's special finishes, a passion for tabletop is at the heart of WMF's design concepts.

Every piece fits well into your hand and has a **well balanced** weight

The tines of the fork have been **finely sharpened** and are also **neatly finished** on the insides

The bowls are absolutely symmetrical

All edges have been accurately finished

The knife blade **tapers evenly** from the bolster to the tip and from the back of the cutting edge

The **scalloped edge or serration** - ensures a **high and lasting sharpness**: slices and cuts; does not tear.

Sample Kits Available **3 Piece Includes:** table fork, table knife, coffee spoon
5 Piece Includes: table fork, table knife, coffee spoon, dessert fork, dessert spoon

18/10

18/10 stainless steel will not tarnish, is **rustproof**, **acid-resistant**, **unbreakable**, easy to clean and therefore extremely **durable**. Since its inception, stainless steel has been considered a modern, **high quality** and durable material of **upscale dining** culture. Cutlery made from stainless steel has become the general standard.

stonewash

Each piece is **unique**. The stone-washing method gives the pieces of cutlery an impressive vintage feel. After the mechanical stone-washing treatment, no piece of cutlery is identical to another. Each unique piece has its own characteristics, ensuring a **distinctive** look, especially when combined with rustic or antique porcelain and glassware.

pearl

The glass bead blasting creates matte **satin nuances**. Small glass balls act on the cutlery or other stainless steel products at high speed and great pressure, creating a **soft glow** that comes into its own when combined with **elegant** table settings.

silverplate

A **seamless** production process has been developed over the past 150 years: a layer of silver is inseparably bonded with robust 18/10 stainless steel in an **electrolytic** bath. The result is an **elegant** appearance with a soft sheen and high reflectivity.

pvd

Stylishly different – stand out from the crowd with this elegant and **vibrantly colorful** surface coating and give your cutlery a remarkable note. With **four** stylish, unusual colour versions of copper bronze, gold, anthracite and pale gold your cutlery adds a **new stylish touch** to any table.

WMF Quadro. The new buffet system.

WMF Quadro offers your team all they need for an entirely unique buffet presentation. Each element matches the rest: frames, inserts, and top frames that are easy to set up and impress your guests. Different finishes, surfaces, and materials all form a harmonious whole from the highest quality materials. Quadro is deliberately understated with a distinct, minimalist, modular design for you to create your own incomparable composition.

No buffet is like another. Whether it's a hotel, a catering chain, or a restaurant, the modular Quadro Buffet allows for unique configurations that are tailored precisely to your workflow. From food preparation to presentation Quadro adapts to all tasks large and small, and even those you might not have thought of yet.

The inserts are made of white porcelain. 1 or 2.6 in. high. In a wood look, grey glass or satin glass. Bread basket insert 3.1 in high.

The top frames and consoles. Optional. In various sizes.

The ice pan. Optional. 2.2" or 4" high.

The adapter frame is made of metal. Optionally as LEDlight unit made of matte acrylic glass.

The frames are made of stainless steel. 3.1" or 5.1" high

Whether it's a breakfast, midday, dessert or evening buffet, WMF Quadro makes it particularly easy to set up. It takes just a few touches to get single modules and combinations ready for use and this can immediately be reproduced.

chop, slice, mix stir. until everything is just right.

Front door closed, fridge open – make sure everything is ready. Unpack the ingredients and follow your nose. Stir, whisk and chop yourself into a Zen-like trance. Even stubborn vegetables or unruly sauces will fall under your spell. Marinade and season liberally – let pepper and spice mills be your master. Set everything out.
