

SuitePad Lobby Screen

Informative | Modern | Supportive

A DIGITAL INFORMATION POINT FOR YOUR GUESTS

SuitePad Lobby Screen is the perfect solution for any hotel lobby. The touch screen function is easy for guests to use whether they're looking to book a table at the restaurant, a session at the spa, or as an intuitive information point.

EASE THE WORKLOAD FOR FRONT DESK STAFF

The SuitePad Lobby Screen relieves the workload for your front desk staff so they can concentrate on attending to tasks that need that extra bit of service. Rather than having guests queue to make simple requests, let them explore what your hotel has to offer and book directly using the interactive lobby screen.

INTUITIVE BACKEND FOR QUICK UPDATES

It's quick and easy to update the SuitePad Lobby Screen through the centralized backend—all it takes is a few clicks and you're up to date and ready to go. This is perfect for hotels that have regularly changing restaurant menus, varying local information, or simply want to keep guests up to date with weekly activities.

THE LARGE GUEST DIRECTORY – IN A SMALL BOX

The SuitePad Lobby Screen consists of a small box (13x9x5 cm) which can be sold individually or as part of a package that also includes a 27" Acer touch screen. It is the perfect complement to SuitePad's digital guest directory for the hotel room.
