MiYO® Trans Garnet

MiYO Garnet is the latest dental innovation pioneered by Jensen Dental for the **MiYO Liquid Ceramic System**.

The translucent self-glazing Color offers additional flexibility with the MiYO System and can be used to:

- Modify basic A,B,C,D shades to more red range
- Help easily obtain Vita 3-D shades
- Allow formulation of multitude of color combinations when used in conjunction with Sunflower and Trans Midnight as primary colors
- Achieve formerly unachievable combinations of natural looking tissue colors with components of the MiYO Pink System
- Create every detail imaginable in one application
