It's true, all ceramic materials continue to dominate the majority of fixed restorations in the market and that the greatest challenges laboratories just like yours face is knowing how to make your restorations look beautiful and functional without all of the skilled resources you once had at your disposal.

Want to learn an easier, faster and better way to make your all ceramic restorations GREAT?

Join us for an exclusive 30 minute LIVE webinar with industry expert James Choi and learn how MiYO can instantly help you:

- Consistently deliver highly esthetic results for teeth and tissue
- Decrease costly production and turnaround times
- Increase per unit profitability
- Not only compete, but DOMINATE with MiYO

Are you ready to step up your monolithic game?

Can't attend? You should still register!
