

GRAITEC ACQUIRES CADPOINT (UK) – A BIM provider of solutions for the AEC Industry

3rd November 2020 – [GRAITEC](#), an international BIM, Fabrication and Design software developer for AEC, and Autodesk® Platinum Partner across Europe, is delighted to announce the acquisition of CADPOINT, a U.K based company that provides Autodesk solutions for the AEC Industry to a broad range of clients located across the United Kingdom.

CADPOINT, operating from premises in Crowthorne Berkshire, provides consulting, support and training to companies across a broad range of industry sectors. This latest acquisition will further enhance Graitec's position in one of its key markets in Europe.

With recent investment from Apax partners, Graitec continues to show its appetite for expansion and looks forward to serving an increasing number of customers across Europe and beyond.

Manuel Liedot, GRAITEC CEO comments: *“By acquiring CADPOINT we continue to invest in one of the key BIM markets in Europe. This is in line with our acquisition strategy that aims to further expand Graitec's customer base and product offering, while enhancing our CREATE – SIMULATE – FABRICATE – MANAGE strategy to provide an end to end solution for the Construction sector, covering Architects, Engineers and Construction companies”.*

Mike Jourdan, CADPOINT Managing Director comments: *“By joining Graitec, our customers will further benefit from being maintained by a company with a long history in design & collaboration. The Graitec team has the skills and expertise to enable CADPOINT customers to have access to a far wider range of BIM Tools and consultancy. “*

Steve Houlder, GRAITEC COO comments: *“We look forward to welcoming CADPOINT customers into the Graitec group. CADPOINT has a very successful history, and as we move forward together, we aim to build on this strong foundation by introducing Graitec technology to the Autodesk software side of the business”*
