This checklist is a guide for the initial documents we will need to move you through the loan process. Depending on the type of loan you receive additional documents could be needed. **We will walk you through this every step of the way.**

**Why do we need this information?** Where others see risk, we see opportunity. In order to get you capital, we need to understand you and your business. The information we request will help us through this process. If you don’t have certain documents or financials, we can help you find the best route or provide templates to create them.
