

Certification Path 8: SYSPRO User Planning Role

The Planning Role certification path is aimed at **SYSPRO Users** who may perform the roles of **Planner** or **Production Manager**. This path focuses on the SYSPRO 8 solutions which are used to maintain structures and routings; manage estimates and quotations; forecast inventory; schedule production; plan material, capacity, and resource requirements; and schedule, control, and evaluate manufacturing operations.

Prerequisite: None

The Level 1 certification assesses users on basic ERP industry, inventory, and manufacturing terms and navigating the SYSPRO 8 interface and programs. It also assesses users on the basics of SYSPRO's manufacturing solutions and how they support the manufacturing process.

The Level 2 certification assesses users on the SYSPRO 8 solutions which users in the Planning role use to perform their duties. These include but are not limited to the *Bill of Materials*, *Quotations*, *Requirements Planning*, and *Work in Progress* modules, as well as the **Forecast Maintenance**, **Master Production Schedule**, **Requirements Planning**, **Manual Scheduling**, **Resource Planning**, **Job Postings** and **WIP Inspections** features.

The Level 3 certification assesses users on the Planning role within the manufacturing business processes and manufacturing environments.

Certification	Estimated Number of Days to Complete	Number of Exams
Level 1	6	2
