Certification Path 8: SYSPRO User System Administration Role

The System Administration Role certification path is aimed at **SYSPRO Users** who may perform the role of **System Administrator**. This path focuses on the SYSPRO 8 administration-related solutions, including security and customization, as well as SYSPRO Espresso and SYSPRO reporting administration.

Prerequisite: None

The Level 1 certification assesses users on basic ERP industry, inventory, and manufacturing terms and navigating the SYSPRO 8 interface and programs. It also assesses users on the core SYSPRO administration solutions, which include but are not limited to system configuration, system management, importing and archiving, shortcuts, and utilities and diagnostics; role-based security, passwords, groups, operators, electronic signatures, monitoring, and auditing; and menu, desktop, program, language, and search customization, as well as power tailoring using VBScripting.

The Level 2 certification assesses users on more advanced aspects of SYSPRO administration which include but are not limited to the *SYSPRO Reporting Services* and *SYSPRO Espresso* administration.

The Level 3 certification assesses users on their SYSPRO administration problem-solving abilities.
