

IHI Fellowship Program

Developing health care leaders in quality and safety worldwide

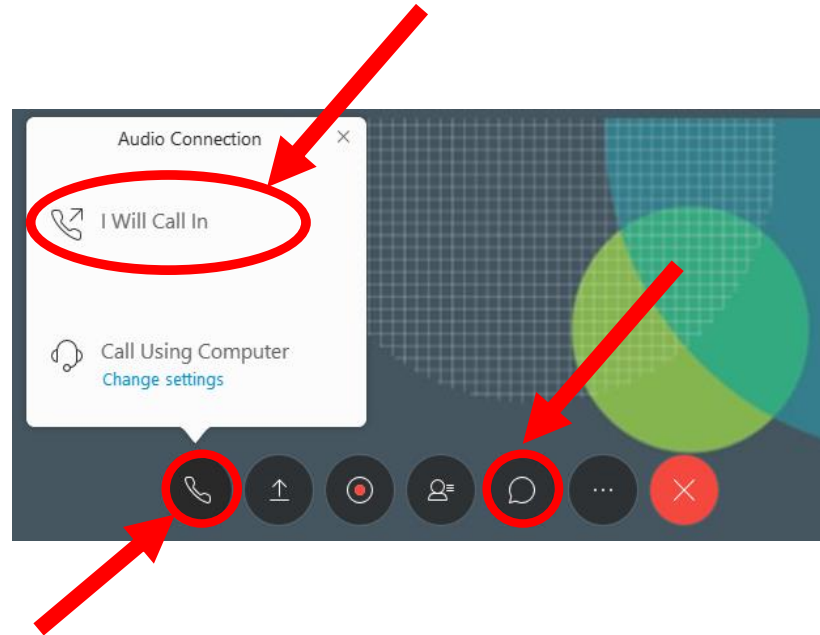

A decorative graphic in the bottom right corner consists of several overlapping circles and a grid pattern. One large teal circle is partially cut off by the right edge. It overlaps with a smaller teal circle, which in turn overlaps with a green circle. A light blue grid pattern is visible behind these circles.

IHI Fellowship Class of 2020

Fellows will:

- Bring new ways of thinking and innovative ideas for improving the quality of patient care, reducing harm, and improving quality of care and patient-centered outcomes back to their organization
- Make a direct impact on their system while pursuing a strategic project with metrics tied to strategic organizational goals
- Deepen their knowledge in quality and safety science
- Learn how to lead system changes in quality, safety, and culture, including how to engage, influence, and impact culture change

Fellows will be exposed to:

- Quality and Safety Content
 - Access to and guidance from renowned IHI leaders and faculty, including health care quality and safety experts, and innovative leaders who have improved systems in other industries
- Leadership skills
 - A final presentation made to program peers, faculty, and project sponsor from the participants home organization
 - Interactive case studies and simulation-based learning opportunities

Fellows will be exposed to:

- Support and Networking Opportunities
 - A lasting and meaningful global network of peers and faculty, allowing for an exchange of advice, ideas, and support in the long-term (this includes an exclusive alumni network)
 - Senior sponsorship and active engagement from your home organization's executive team, including quarterly sponsor progress check-ins
- Mentoring
 - A dedicated mentor providing continuous feedback and support

Fellows can expect

- Access to key modules from the IHI Open School so they can refresh their knowledge of improvement science and patient safety principles and methods before starting their fellowship
- Access to the CPPS online review course and credentialing exam
- Two, four-day virtual retreats (February and June, 2021)
- Bi-weekly live virtual meetings
- Bi-weekly self-paced online learning modules
- Independent learning assignments
- A final presentation made to program peers, faculty, and project sponsor from the participants home organization

About CPPS

P12

- Launched in 2012 by the Certification Board for Professionals in Patient Safety (CBPPS) at the National Patient Safety Foundation
- Rigorous and comprehensive credentialing process that attest to patient safety competencies and expertise
- Evidence-based examination covers 5 patient safety domains:
 - Culture
 - Leadership
 - Patient Safety Risks and Solutions
 - Measuring and Improving performance
 - Systems thinking and Design / Human Factors

Typical Learning Month:

- 1 hour of Fellowspace and Creating Connections
- 1 hour of live instructor-led learning (curriculum based)
- 1 hour of independent learning
- 1 hour of independent Affinity Group participation
