

PRODUCT BRIEF

Oreka CR (Cloud Recording)

**The Most Affordable and Easy-to-Use
Cloud Call-Recording Software on the Planet**

Oreka CR (Cloud Recording) is an OrecX-hosted web solution providing full-featured call recording in under 30 minutes with no on-premise hardware requirements. Oreka CR is offered at half the cost of competing call recording solutions, and it is the only call recorder featuring OWASP Level 2 protection (web application security).

This cloud call recording solution supports IETF Standard SIPREC and others as well as multiple security, fine-grained privilege access.

Features include:

100 percent call capture

Live monitoring

On-demand recording

Multi-tenancy

Unlimited scalability

Flexible, unlimited cloud-based storage

Audit trail

OWASP Level 2 protection verified by established 3rd party security consulting company

File portability for off-site long-term storage

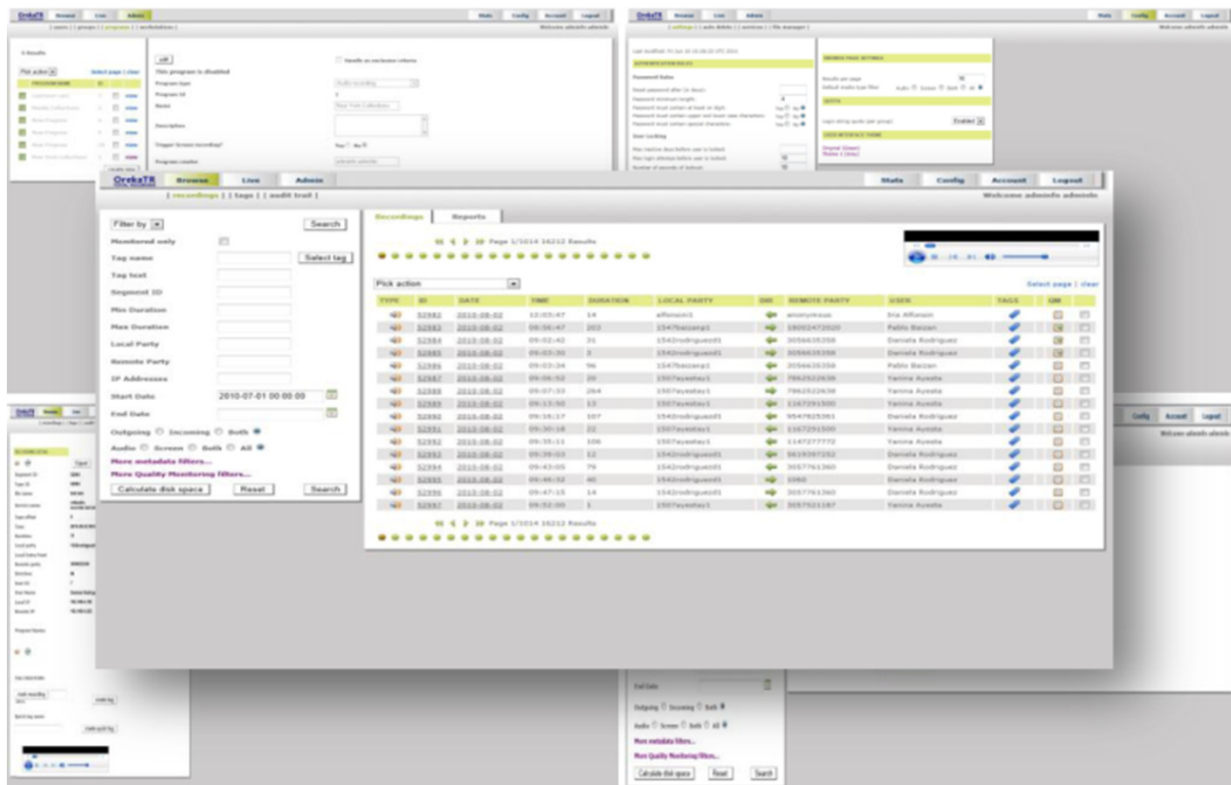

Open/Rest API

Auto provisioning

No hardware requirements

Search, find and categorize recordings based on time or date of call, incoming phone number, outgoing phone number, agent extension, timestamp, recording duration, and much more

OREKA CR
