

# Convert Seamlessly to Our New and Improved Human Capital Management Platform

Would you like to get even more out of your current workforce management system? Good news! We're moving to a new platform that offers a comprehensive solution to further streamline your payroll, time and labor management, and HR processes. Our new full-suite, integrated human capital management (HCM) solution embraces your entire workforce with end-to-end employee lifecycle management.

**Single sign-on access** to payroll, time and attendance, HR, and benefits information in real time with a customizable dashboard for more intuitive navigation.

**A flexible, modular solution** that allows you to keep your current services and add additional functionality as you grow, so you pay only for what you need.

**A comprehensive HR system** that addresses the complete employee lifecycle — hire to retire — and includes a free HR compliance library.

**Automation of manual processes** with our enhanced employee self-service, including mobile app access, electronic onboarding, PTO requests, customized forms, workflows, and email notifications.

**Easy-to-use dynamic report writer** for custom reporting you can save to your library or export in Excel, CSV, or PDF formats and even schedule to receive via email.

**Profile-based customized security** with unlimited user access.

**Geospatial tax identification** that obtains the information on your employee's residence and work address to easily and accurately apply the proper local taxes.

**An entire marketplace** of third-party integrated add-on services including background checks, employment eligibility verification, benefits carrier integration, and many more.

It's simple to get an enhanced suite of HCM tools for your business with the same great customer service you've come to expect from us, your trusted provider, through an easy and hassle-free conversion process that we will manage for you.
