THE CLEANCHAIN COMPLIANCE MODULE

As an environmental software solution, CleanChain is renowned for helping brands and suppliers manage and monitor their environmental and social practices. So whether you have one facility in a single location or hundreds across multiple regions, managing the compliance risk is time-consuming and resource-intensive.

Staying on top of constantly changing regulations and monitoring steps to comply with them can seem like a data and logistics nightmare. CleanChain Compliance Module now makes it easier for anyone to know the law by filtering, configuring & tracking unique, site-specific legal registers, enabling you and your lawyers to quickly navigate regulatory complexity with certainty.

THE COMPLIANCE MODULE ENABLES YOU TO:

Monitor and maintain compliance for your facilities across the globe

Stay current with laws and regulations at global, regional, and local levels

Track what you need to meet voluntary commitments like ISO Standards, sustainability certifications, and company-specific pledges

Demonstrate a global commitment to lawful operations, environmental compliance, and worker health and safety

Get unprecedented insight into your federal and state compliance

KEY FEATURES OF THE COMPLIANCE MODULE

Applicability analysis

Do you know what compliance regulations apply to your facilities? Let CleanChain determine your compliance obligations quickly and easily, on a site-by-site basis.

Compliance tasks

What are your next steps? Take action with CleanChain's Compliance tasks, and work with individual facilities to customize an action plan for their specific compliance obligations.

Dashboard

Every individual facility's compliance data, all in one place. You will instantly see which facilities are compliant, what compliance tasks need to be completed, and when.

Complete compliance list

Keep track of all compliance obligations in one place with CleanChain's compliance list feature.

Legal summaries

Dig into the legal requirements for each facility by reviewing the plain English legal summary text of the law—no need for legal counsel review or interpretation.

Flexibility

Utilize CleanChain's automated system for your compliance management or use your manual entry capabilities.

With over 600 law amendments, 40000 section changes and an estimated 6500 highlights across four countries to hundreds of license holders. Keeping brands and suppliers operating within—and ahead of—environmental, health, and occupational safety compliance obligations.

KEY BENEFITS DELIVERED:

- ▲ Save time
- ▲ The automation of legal register compilation and updating saves legal, compliance & risk professionals substantial time.
- ▲ Employees are able to focus on the high, value-add work, instead of searching for legal updates and relevant law.
- ▲ Increase productivity
- ▲ Spend less
- ▲ Fewer resources are required to get the job done. For example, costly manual legal research can be replaced with the CleanChain Compliance module.
