CLOUDEON

CLOUD TRANSITION

Move your applications to the cloud with maximum business impact and minimum risk

Take the pain out of transition projects with predictable results

Transitioning your IT to any new platform is often a daunting task that interrupts business, causes loss of focus and comes with a huge financial overhead.

CLOUDEON offers a proven framework and tooling process to ensure a swift and seamless transition to a Public- and/or hybrid Cloud.

Our team is specialized in cloud migrations with guaranteed test and fail back methods to minimize your risk and ensure minimal business downtime.

Why Cloud Transition

Cloud Expertise - CLOUDEON has the trained and certified cloud experts with many years of experience with on-premise workloads and their needs. This enables us to advise and transition your workloads to the cloud with minimal impact on your business.

High Speed, Low Cost - CLOUDEON has developed automation tools backed by machine learning that enable us to transition your workloads to the Cloud with known and predictable results.

Migration Experts - With extensive experience in migrating applications and work-loads to cloud platforms we have incorporated modern migration methodology, capable of any transition required including application refactoring.

KEY FEATURES

Transition of server-based workloads to cloud platforms with minimal customer interaction.

Re-Platforming of custom applications to PaaS services through expert assistance.

Specialized recommendations and tran-sition paths for applications to new SaaS based services.

Proven framework for transition planning and execution of all types of environments minimizing impact on business.
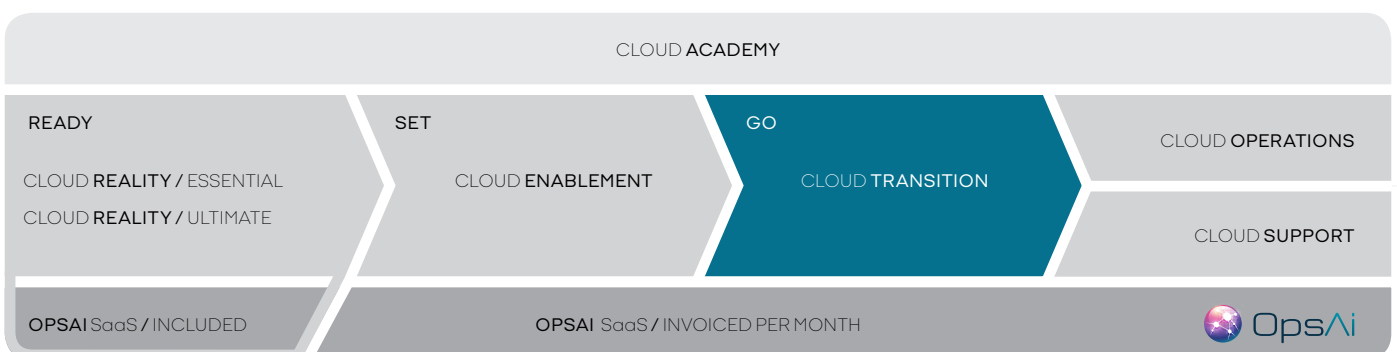

Predictability Our approach ensures con-sistent progress and predictable results.

Secure model for retiring IT assets with secure data archival to remove risk of data loss.

Support: During and after the transition process we can ensure all solutions are fully supported. [Optional]

Operations: During and after the transition process we can ensure all solutions are running and monitored 24/7 by our Cloud Operations Center. [Optional]
