Join us for a legislative briefing on the priority bills supported by the Zero-Emission Vehicle (ZEV) Coalition. The ZEV Coalition includes over 25 environmental, transit, community, and labor groups working on electric vehicle policy, advocacy, and education.

Transportation is the largest contributor of greenhouse gas emissions and air pollution in Massachusetts. Low income and communities of color have consistently borne a disproportionate burden of vehicular air pollution. Accelerating the transition to zero-emission vehicles, starting with public fleets, offers the opportunity to lower air pollution and improve public health outcomes for our most vulnerable populations.

Join the bill sponsors and the ZEV Coalition to learn more about the following bills:

- Promoting Zero Emission Vehicles through Incentives and Infrastructure ([H.3347](#) / [S.2151](#)) | Rep. Meschino, Sen. Crighton
- Setting Targets for Electric Fleets: School and Transit Buses, Trucks, and Cars ([H.3255](#) / [S.2139](#)) | Reps. Barber, Meschino, Sen. Boncore
- Public Transit Electrification: Buses and Trains ([H.3559](#) / [S.2292](#)) | Reps. Owens, Barber, Sen. Crighton
- Phasing Out Internal Combustion Engine Registration by 2035 ([H.3541](#)) | Rep. Meschino
- Supporting E-Bike Adoption Through Consumer Rebates ([H.3262](#)) | Rep. Blais
- An Act Relative to MBTA Governance ([H.3542](#) / [S.2266](#)) | Rep. Meschino, Sen. Boncore
