

# Heat Pump Rebates

## For Rhode Island homes currently heated by oil or propane

The Rhode Island Office of Energy Resources (OER) is offering enhanced rebates for energy-efficient central and mini-split heat pumps installed in qualifying homes that heat primarily with oil or propane. These rebates are valid only for installations that are completed between March 1, 2021 and December 31, 2021. OER funding is limited and will be available on a first-come, first-served basis. OER funding is available for rebates for energy-efficient central heat pump and mini-split heat pump systems that are designed to displace heating oil or propane. The OER funded Enhanced Rebates shown in the table below will be added to the National Grid funded Standard Rebates to provide the Total Rebate available. A licensed program-approved contractor must install the equipment designed so that it can supply most or all of the heating needs of the home. Only qualifying equipment as shown below is eligible.

Equipment Type	Delivery Method	Requirement*	Standard Rebate	OER Enhanced Rebate
<b>Central Heat Pump</b>	Ducted	AHRI: SEER > 15, HSPF > 9	\$350 per ton	\$650 per ton
<b>Mini Split Heat Pump</b>	Ducted or Mixed Ducted	AHRI: SEER > 15, HSPF > 9	\$350 per ton	\$650 per ton
<b>Mini Split Heat Pump</b>	Non-Ducted	NEEP**: SEER > 15, HSPF > 10, COP 1.75 at 5 degrees	\$150 per ton	\$850 per ton
<b>Integrated control</b>	n/a	Add-on to new or existing heat pump.	n/a	\$500 per indoor unit, max of \$1,500

\*Mini split heat pump units that provide only cooling are not eligible.

\*\*For equipment requiring Northeast Energy Efficiency Partnerships (NEEP) listing, refer to NEEP.org.

## For Rhode Island homes currently heated by gas

### Residential electric heating and cooling rebates ([National Grid](#))

Equipment Type	Delivery Method	Requirement*	Rebate
<b>Central AC</b>	Ducted	AHRI: SEER > 16, EER > 13	\$50/ton
<b>Central Heat Pump</b>	Ducted	AHRI: SEER > 15, HSPF > 9	\$350/ton
<b>Mini Split Heat Pump</b>	Ducted or Mixed Ducted	AHRI: SEER > 15, HSPF > 9	\$350/ton
<b>Mini Split Heat Pump</b>	Non-Ducted	NEEP**: SEER > 15, HSPF > 10, COP 1.75 at 5 degrees F	\$150/ton

\*Mini split heat pump units that provide only cooling are not eligible.

\*\*For equipment requiring Northeast Energy Efficiency Partnerships (NEEP) listing, refer to NEEP.org.

## For Rhode Island homes currently heated by electricity

Residential heat pump rebate: for displacement or replacement of electric resistance heat ([National Grid](#))

Equipment Type	Delivery Method	Efficiency Requirements	Rebate Amount
Central Heat Pump	Ducted	AHRI SEER > 15, HSPR > 9	\$1,250 per ton
Mini-Split Heat Pump	Ducted, Mixed-Ducted	AHRI SEER > 15, HSPR > 9	\$1,250 per ton
	Non-Ducted	SEER > 15, HSPF > 10, COP 1.75 at 5 degrees F
