The Ultimate Vinyl Glove Replacements: Cost-Effective & Food Safe

Eagle TPE and STRETCHPoly gloves are ideal for food applications such as serving, distributing and light food processing and assembly. These comfortable and flexible gloves are made from a durable stretch material and are also suitable for light industrial and safety use.

What's the Difference?

TPE Embossed Gloves

- Made from thermoplastic elastomer
- Fully embossed for added grip
- Available in clear

STRETCHPoly Gloves

- Made from stretch polyethylene
- Available in clear & blue
