

Center of Excellence Program REQUIREMENTS

The UroLift® Center of Excellence (COE) Program is designed to enhance patient outcomes and experience.

Initial Designation: Requirements to Achieve UroLift® Center of Excellence Designation

UroLift® Proficiency Pathway	Physician must complete the UroLift Proficiency Pathway training (surgeon training program which includes online module training and completion of 15 UroLift® System cases).
Physician Education*	Physician must complete a minimum of two Teleflex Clinical and Medical Affairs (CMA)-led educational events. <i>(Outlined on next page)</i>
Case Experience**	Physician must complete a minimum of 60* UroLift System cases within the 12 months prior to submission for designation.
IPSS Data Collection*	Physician must submit de-identified IPSS data from a minimum of 30 UroLift System treated patients including: 1. Pre- and post-procedure IPSS data demonstrating mean improvement $\geq 40\%$ compared to baseline average. (Please see submission requirements below) 2. Date of each pre- and post-procedure assessment 3. Indicate the use of BPH medication at the time of pre- and post-procedure IPSS assessments

* Within 12 months prior to submission for designation. + Cases cannot include a physician's initial 15 training cases.

Re-Designation: Requirements for Annual UroLift Center of Excellence Re-Designation

Physician Education	Physician must complete a minimum of one Teleflex Clinical and Medical Affairs (CMA)-led educational event. <i>(Outlined on next page)</i>
Case Experience	Physician must complete a minimum of 60 UroLift System cases.
IPSS Data Collection	Physician must submit de-identified IPSS data from a minimum of 30 UroLift System treated patients including: 1. Pre- and post-procedure IPSS data demonstrating mean improvement $\geq 40\%$ compared to baseline average. (Please see submission requirements below) 2. Date of each pre- and post-procedure assessment 3. Indicate the use of BPH medication at the time of pre- and post-procedure IPSS assessments

In the interest of continuous improvement, we reserve the right to analyze the data and make modifications if deemed appropriate.

Requirements for Physicians who are Re-Designating :

If a physician was first designated between June 30th and December 31st, 2020, he/she is required to complete the re-designation requirements for 2022 by December 30th 2021.

Questions?

Please submit questions about the program, requirements or submission process to UroLiftCOE@Teleflex.com or call 925-208-0688

Center of Excellence Program REQUIREMENTS *cont.*

Physician Education Details:

Physician education events will be led by the Clinical and Medical Affairs (CMA) division within Teleflex Incorporated. CMA is focused on providing medical education to support the safe and effective use of Teleflex products in patients.

Qualifying Physician Education Events:

- Preceptorships
- Proctorships (CMA or faculty-led)
- BPH Summits
- Webinars run by CMA personnel
- Teleflex CMA staff-led seminars
- Faculty lead during Proctorship, Preceptorship or BPH Summit. (Teleflex contracted HCPs)
- UroLift® University Modules*:
 - Obstructive Median Lobe Technique
 - Preventing and Managing Complications: Bleeding
 - Preventing and Managing Complications: Retention, Incontinence, Retreatment
 - Patient Consult
 - Clinical Data Video – LIFT 4 Year
 - Median Lobe Webinar
 - Procedure Review – 3 cases, Gregg Eure, MD

Approved physician education events and modules are subject to change as new information is released. Events can occur virtually or in-person.

* Physicians must be logged into their individual UroLift University account for the modules to be counted as complete.

To Submit for COE Designation or Re-Designation:

- Please complete the approved COE Program IPSS Excel Template and Submission Form.
- Incomplete documents will be returned to you for completion
- Submit your completed documents to UroLiftCOE@Teleflex.com. *As a reminder, please remove any PHI (Including MRNs) before sending to NeoTract | Teleflex.*
