# Drive your business decisions with hydra BI
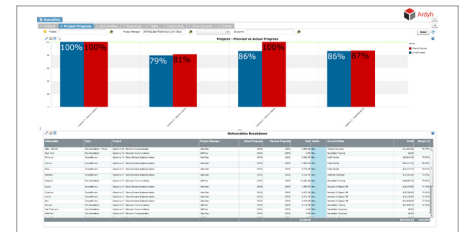

Hydra BI is the advanced Business Intelligence solution giving you greater insight into your vital data to focus your business decisions.

- Do you struggle to get an overall view of what's happening in your organisation?
- Can you access your key business information in an instant?
- Do you need more reliable, accurate reporting?

- Browser based interface for ease of access
- Higher quality data insights
- Efficient data extraction
- Ultimate visibility
- Consistently accurate reporting
- Data-driven decision making
- Integrates with existing systems

Drive strategic decision making

Hydra BI gives you the ability to convert raw data into meaningful information. Build an understanding of your organisation's strengths and weaknesses and identify issues and opportunities for improvement. Use this information to make more informed decisions and drive forward.

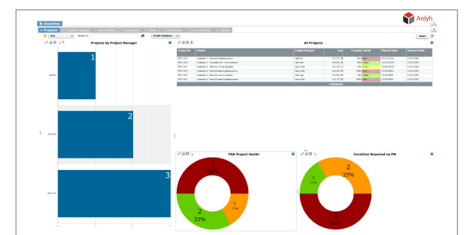

Consolidated data

Hydra BI consolidates data from either of our solutions Hydra PSA and Hydra RM, giving you an executive level view of your entire operation, from project performance right down to task health. Using the simple and intuitive dashboard, you can achieve a high level of visibility and gain deeper insight into your processes.

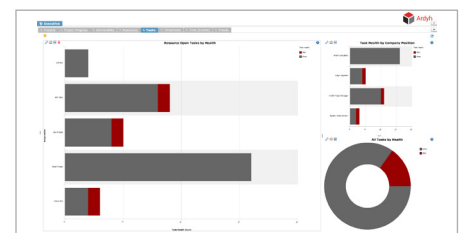

Collaborate

Move away from operating in information silos and increase visibility across your entire organisation. This browser based platform enables sharing of information across departments improving communication and transparency.

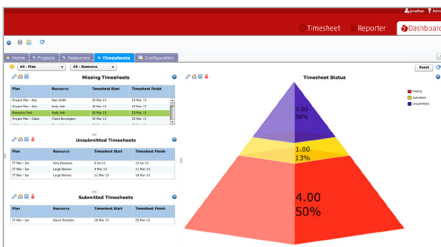

Customise

Design custom dashboards to focus on key data by function, team or division. Create and track your KPIs, get trend alerts and drill down to the underlying data to examine and compare.
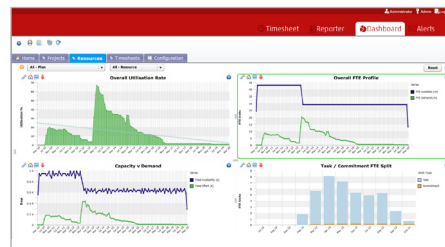

Drill down to the detail you need

With Hydra BI's drill down capabilities, you can extract detailed information on a specific project or resource, without searching through multiple spreadsheets.

Access full visibility of your resources

Get an instant, accurate representation of your entire resource pool. Identify the gaps, make quick decisions and maximise your resource utilisation.

All your data in one simple view

A complete view at your fingertips, pulling data from multiple sources. Gain transparency of all your projects with Hydra BI's advanced customisable dashboard.

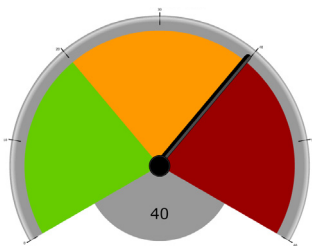

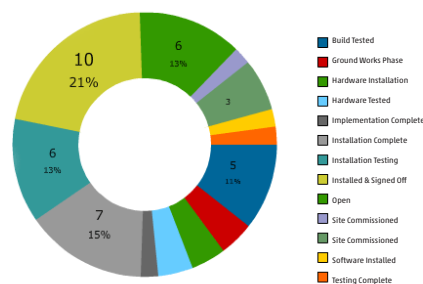

Empower your employees

- Self-service reporting
- Measure individual/ team performance
- Motivate staff

- Encourage collaboration
- Increase productivity
- Work to the same goal

With Hydra BI, you can achieve a company-wide view of performance and progress, empowering your employees to make better decisions.

Project Portfolio Health Check

Deliverables State

- Simple browser based interface
- Clean data visualisations
