Smarter connectivity for the Transport Sector

SSE Enterprise Telecoms is one of the UK's leading connectivity providers, with over 20 years' experience in taking the complexity out of connectivity.

We're investing heavily in expanding our national fibre network to ensure our Transport customers across Rail, Highways, Maritime and Aviation can access the secure and robust network infrastructure they need to operate efficiently and cost-effectively, and we have a dedicated Transport sector team ready to work with you to achieve that.

Rail   **Highways**   **Maritime**   **Aviation**

A high-bandwidth UK network

Choosing us as your network provider means access to:
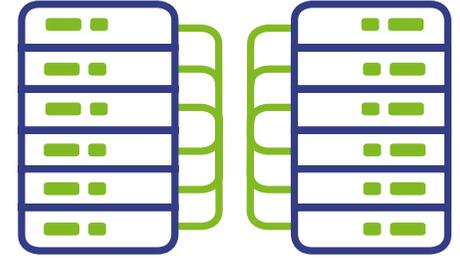

# 20,000+ KM

expanding fibre network across the UK

90+
data centres

350+
Points of Presence

100 Gbps

Wide range of connectivity solutions including Dark Fibre, Ethernet, Optical, Cloud Connect, Dedicated Internet Access and SD-WAN, with ultra-fast speeds of up to 100Gbps.

High-speed growth ahead

Backed by SSE plc and leading infrastructure investor, Infracapital, SSE Enterprise Telecoms is investing heavily to expand and develop network infrastructure across the UK. We're willing to co-invest in network assets to improve connectivity on the move.

Making the complex simple

We'll make it simple for you to implement the network solutions you need, however complicated they are, because we know how to make technology change happen. We have proven national network infrastructure capability including responsibility for mission-critical national services.

Peace of mind

Safety, security and performance are paramount in our network operations and we have a strong service delivery reputation backed by class-leading NPS scores of 55+.

55 +

Class-leading NPS scores

"As a train operator, we expect high standards of safety whenever one of our contractors works on our stations; with SSE Enterprise Telecoms we have that confidence in its engineers' ability to get the job done safely without putting anybody at risk."

John Matton
IT Technical Manager, South Western Railway
