About 3 years ago I contacted Xybix to get a quote on some new furniture for my dispatch center. Just about the time we were almost done Hurricane Michael hit the Gulf Coast area and we saw first hand the extreme devastation. The City leaders knew that we could not build a new dispatch center in the building we had planned. So, a new planned was developed to construct a new dispatch center that could take a hit. In saying all of this, Xybix worked with us during this whole ordeal. They are extremely pleasant to work with both on the initial ordering and through their customer service. Their sales rep Halley Barba is very friendly and extremely informative.

The Xybix furniture is absolutely FANTASTIC!!! My communication officers are so excited and proud of their new area which they deserve. I am extremely pleased with the whole experience with Xybix. Because of their friendly service and great customer support I will continue to use Xybix for any future office/dispatch furniture needs.

Thank you Xybix!

Respectfully,

Anthony D Holland  
Fire Chief
