Dear Xybix Team:

My sincere appreciation for the attentiveness you all provided to the Pueblo of Laguna during the process of building our tele-communication center. You were all very professional and more importantly, very courteous as we all worked together to make this happen. I am extremely happy with the outcome of the deliverable and will definitely work with Xybix regarding future tele-communication upgrades.

I look forward to our continued collaboration and partnership. I will definitely recommend Xybix to other agencies who are considering upgrading to their centers.

Sincerely,

Jesse Orozco
Public Safety Director
