Frequently Asked Questions

What does "skilled home health" mean?

Skilled home health is built around services that are ordered by a physician. These can include physical therapy, occupational therapy or even speech therapy. These are the services designed to get you back to where you need to be and maintain your independence.

Who can receive services?

Skilled home health services are designed for anyone recovering from a serious injury, a surgery or serious illness, or those needing medication or pain management. Our hands-on approach allows you to strengthen and recover so that you can keep moving and live life fully.

What kind of services do you offer?

Gulfside Home Health services include skilled nursing care at home, including physical therapy, occupational therapy and speech therapy. Services also include medication management, illness monitoring, and a nurse assessment at each visit to monitor and track your progress.

Who provides care for the patients?

The skilled home health services are provided by expert rehab specialists, including physical therapists, speech therapists and occupational therapists. Patients can also receive visits from specially trained nurses and certified nursing assistants, as required by the individual's custom plan of care.

How are services received?

Your Primary Care Physician can easily refer you to Gulfside Home Health for an evaluation. Our team can meet with you at the hospital to prepare you to go home and get you ready for services after hospitalization due to a surgery, accident or illness. For more information about services or if you have any questions, our team is happy to help. Visit [GulfsideHomeHealth.org](https://www.GulfsideHomeHealth.org) or call us at 813-501-8244.

Helping you live better at home:

Quality Skilled Care and Rehab Services

Get back to doing the things you love with the help of our team and skilled home health services. Our hands-on approach allows you to strengthen and recover so that you can keep moving and live life fully.

Maintaining Independence

We come to you, wherever you call home. Our team understands that keeping a level of independence is important to you, so we'll work with you to help you learn new ways to keep that independence. We can help you improve quality of life so that you are able to maintain independence and stay where you are most comfortable: home.

Caregiver Solutions

Caring for someone as they work through the journey of rehab services and skilled nursing care can bring on its own set of challenges. Our team knows that, and will work with the caregiver alongside the patient to find solutions that fit your lifestyle and needs.
