
SMARTCALL ALERT PAGER

RECHARGEABLE TEXT PAGER WITH COLOR CODED VISUAL MESSAGES.

RE-BIRTH OF A CLASSIC

- What?
 - Old LTMESSAGE form factor is brought back to life
 - Black housing with blue charging light
 - Added features and durability to increase desire
 - Color Alert screens to emphasize alerts
 - Extra capcodes, more messages, built in clip and more...
- Why?
 - More functionality wanted for the increase in need for staff alerts
- How?
 - The Color Pager fits right in with our other Alpha Pager options and will sit well alongside LinkWear in the future.

TRIED AND TRUE COMPONENTS

- SmartCall Alert Pager... Durable Alpha pager that alerts in different colors for smoother communication.
- IStation Transmitter... Our Most versatile transmitter. IP, Ethernet & DB9 serial connectivity.
- Charger ... 6 position small footprint lay flat charger. **
- Mini Keyboard... Compact keyboard for easy free style messaging.

COLOR ALERT

- New Color Display Feature

COLOR DISPLAY

- Pair text with different screen backgrounds for smoother communication.
- Emphasize Alerts with Color!
- White, Green, Blue & Red

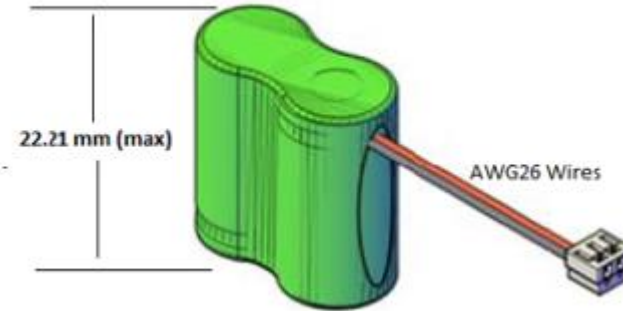

PAGER SPECIFICATIONS

- 200 / 128 -characters per message**
 - 18 characters per line
 - 9 lines per “panel”
 - Equals 162 characters before the scroll is needed.
- 4 Color background/text combinations
- Initial/Standby message
 - Ex: Company name, phone number
 - No images
 - 60 characters max
- OTA Programmable
 - Individual pager #, Base ID, Frequency
 - Canned messages

- 28 Preset Messages
- Use with Alpha and Numeric messages

MECHANICAL

- Black Case
- Time Tested Housing
- Built In Clip
- NiMH Battery (HLFBAT)
- User Replaceable Clip
- Blue Charging Light
- Water Resistant
- Durable

Part # HLFBAT (1/2 AAA Batteries)

SENDING MESSAGES

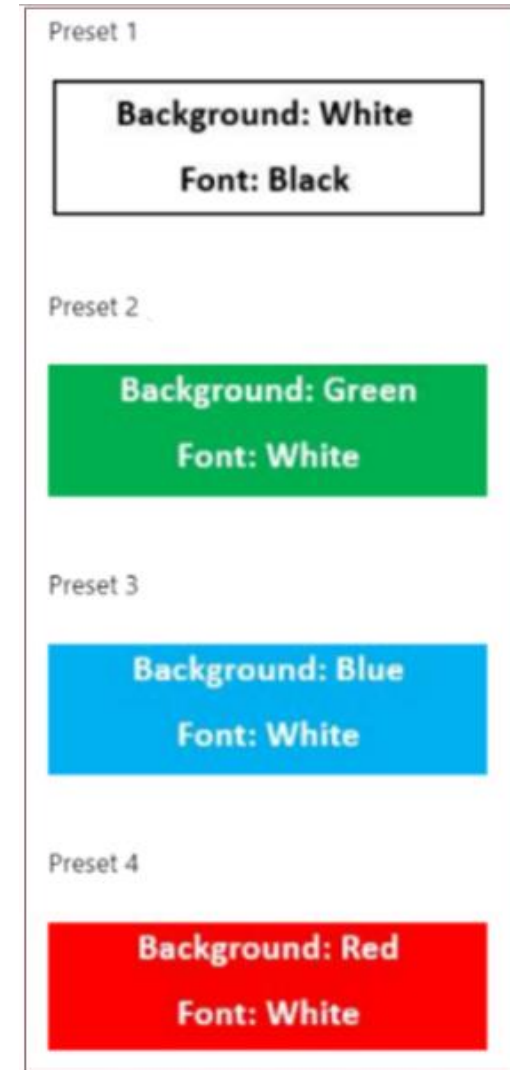

- "Preset Message" must be set to ON
 - This will make the transmitter prompt for the "message= Preset Msg 1-4" every time we send a page
- From the IStation
 - Enter pager #
 - "ENTER" (to select the preset msg 1-4) – Default is 1 (white)
 - "ENTER" again to type a free style message or, send canned message from the transmitter or pager
 - *1 to 10, "SEND" or, the numeric 11-20 to pull canned message from the pager
 - "SEND"

PRE-SET MESSAGES

28 Total Preset Messages

- *1-*10 Messages in Transmitter (max 128 ch)
 - Message *1.... Message *10
 - Programmable onsite or by JTECH prior to shipping
- 11-20 Messages in Pager (max 32 ch)
 - Can be pre entered by production (IQBASE; IStation)
 - 8 fixed messages in the pager (#71-78)
- TBLTXB3A – Can be pre-programmed to send Color Alerts.
- ServerCall transmitters can be pre-programmed to default to different color alerts for use with multiple transmitters.

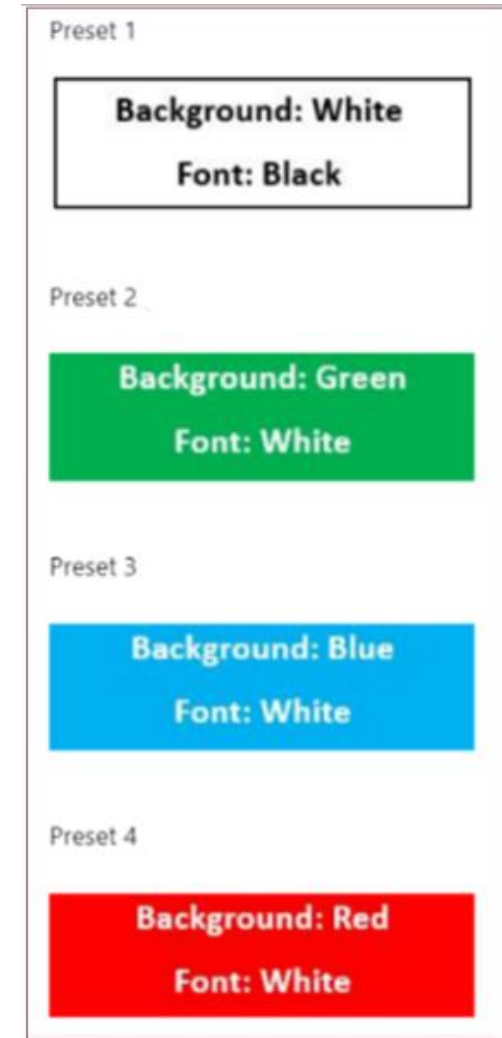

COMPATIBILITY - HARDWARE

- Best Fits:
 - Paired with the IStation transmitter w/ keyboard
 - Call Button sending a fixed message “Come to Desk”, “Help needed”
- Will work with IQBASE for pre-programmed messages only
- Works with ServerCall Transmitters
 - Differentiate stations with Color! *Red = Hot Food; Blue = Cold Food; Green = Salad*
- Not fully compatible with Neo transmitters

COMPATIBILITY - SOFTWARE BASED MESSAGES*

- All current integrations will only send a single beep type, likely beep type 1 or 2. (*i.e. Aloha; QSR Automations*)
- New integrations can be written with this functionality
 - Information for variable beep types has been added into the Integration Document (supplied today) for future integrations.
- SmartCall Messenger only sends beep type 3, currently.
- CloudAlert has the capability to select 1 of the 4 beep types for all messages but only 1 can be set.
- ES Push buttons can send only 1 single beep type.
- Start up LOGO's are not supported

COMPATIBILITY

- Coaster Style Call Buttons

Table Call Ver 9.0

- Beep Type can be chosen for each button.
- You can choose a different background for each message

SELL SHEET

SmartCall Alert

Multi-Alert Paging System

The SmartCall Alert pager offers the most flexible hands-free pager available. With numerous combinations of audible, visual and vibration combinations, you can customize how you communicate with your guests and staff to fit your exact needs.

The four color LCD screen gives the person wearing the pager the ability to receive color-coded visual alerts. Sounds and vibration can be programmed in multiple combinations to signal a new message and the coordinating alphanumeric text message can provide additional instructions or information. Ideal for use in busy, noisy environments where expedient and effective alerts, warnings and messaging are needed.

Alert/Notification Options

- > Audible and Vibration
 - Vibrate
 - Beep
 - LED Flash
- > Screen Colors
 - Red with white Text
 - Blue with white Text
 - Green with white Text
 - White with black Text
- > Alpha and Numeric Text Messages
 - Word wrap function - 128 characters
 - Ten customizable canned messages (32 chars)
 - Eight fixed canned messages
 - Initial standby message

SmartCall Alert System includes:

- > Set of Pagers
- > Multi Unit Charger
- > IStation Transmitter
- > Mini Keyboard

System Highlights

- > Four programmable colors with associated messages
- > Multi-line text messages with optional keyboard
- > Beep, buzz and flash to signal new message
- > Excellent coverage with minimal interference
- > 360 degree durable belt clip
- > Long-life user replaceable battery
- > Over the air programmable
