## FindMe with Arriva

### Curbside Guest Location

Many restaurants, healthcare providers and retail businesses are turning to curbside service to meet their customer's need for convenience and social distancing.

FindMe with Arriva enables your guests or patients to notify you when they have arrived curbside so you can deliver service fast and accurately while they conveniently wait in their vehicle.

Your guests or patients simply park in a designated space and scan that space's QR Code or text a keyword to open the FindMe input screen. They then enter their name and vehicle description. This triggers an alert to your StaffCall IQ pager letting you know that they have arrived so you can take action right away.

- > Greet guests and patients upon arrival
- > Easy for guests and patients to use with no app installation required
- > Keep staff focused on customers versus monitoring tablets or parking spaces
- > Deliver service fast and accurately
- > Optimize staff needed to manage and provide curbside services
- > Quick setup and self-installation
