

Fisher International is a leading global information services and management consulting firm offering pulp and paper businesses better performance through the strategic use of business intelligence. By combining deep data with powerful analytics and expert consulting, Fisher uncovers smart solutions to support clients in long-term goals. We are seeking an expert Strategy Consultant who can foster existing client relationships and lead our ongoing consulting activity in Europe as follows:

Strategy Consultant (SC)

The Strategy Consultant will lead Fisher's consulting activity in Europe, working in conjunction with consulting peers both within Europe and globally, as well as with Fisher's team of business development executives worldwide. The primary function of this role will be to manage and execute upon single-client consulting projects, while ensuring long-term satisfaction, value realization and an ongoing client relationship. The successful candidate will be a self-starter, who is an expert in the field and is able to work independently. This position will report to the Director of Consulting.

Requirements:

- 10+ years relevant work experience with proven track record of success, at least 5 years in a management consulting, strategy or business development role
- Strong pulp and paper industry experience. Packaging, Tissue or Specialties expertise is highly preferred
- Proven ability to deliver on a schedule, sometimes under time pressure
- Ability to manage project teams and work cross-functionally within the organization
- Strong presentation skills and comfort with public speaking engagements
- Flexibility to travel as needed for client meetings and presentations
- University degree (Bachelors or Masters) with good academic performance
 - MBA and/or pulp and paper focus strongly preferred
- Authorized to work in the EU, with the ability to work from home with access to reliable internet and communications equipment
- Fluency in English required

Responsibilities:

- Execution and delivery of assigned project work
 - Scope of work can range from data manipulation, desktop research and materials preparation to complex quantitative analysis and executive-level strategic recommendations
- Support for business development activities
- Identify and drive development of tools to streamline and advance the business
- Inspire clients and provide industry thought leadership and insight
- Internal projects – product improvements, marketing support, etc.

Compensation and Benefits

- Compensation is commensurate with experience
- Benefits package provided
